Washington, DC 20460

Dear Ms. Goode:

I have notice in the amount of time that I've been living the plant sites are in mostly black parts of town. It is in my opinion that if you can build in one neighborhood you can do it in another. Only recently did I find out that it was illegal to only build in one selected area. In the area I live in there are many plants but when I go to the other side of town there are no plants or chemical sites. I just feel it should be equally for everybody.
