Subject FW: Re-submitting final HPV submissions from December 2006

This message is a re-submittal of HPV Challenge Program submissions originally made by Chemtura Corporation on December 21, 2006.

Chemtura Corporation has completed the proposed testing for three single HPV substances:
CAS No 80-15-3 4,4'-oxydi(benzenesulphonohydrazide)
CAS No 88-85-7 Dinoseb
and
CAS No 3806-34-6 2,4,8,10-Tetraoxa-3,9-diphosphapiro[5.5]undecane, 3,9-bis(octadecylozy)-

As a result, we are providing final submissions including supplemental robust summaries which constitute the completion of our commitment for these three substances under the USEPA HPV Challenge Program.

If you have any questions regarding our commitment, please feel free to contact Caroline Maselli at (203) 573-2039 or Caroline.Maselli@chemtura.com. You may also contact me at (860) 429-0038 or wendykoch@eponallc.com.

Please confirm receipt of this email.
