

LEARN Before You Burn

1

Burn the right wood

Burn only dry, well-seasoned wood that has been split properly.

2

The right way

The right way is hot and bright.

3

In the right appliance

The right appliance is an EPA-approved appliance, inspected annually by a certified chimney sweep.

Wood-Burning Season Is Here!

Have you scheduled your
annual inspection?

An estimated 25 percent of home heating fires are caused primarily by creosote buildup in the chimney.* Make your home healthier, safer, and more cost effective. A properly installed and maintained appliance burns more efficiently and saves you money. Contact your local certified chimney sweep to **schedule an annual inspection today.**
