## Proposed Third Rule

- On 4/1/2022 EPA published a proposed rule (the "Third Rule") that proposes regulatory changes to:
  - Incorporate hazardous waste export manifests into the e-Manifest system
  - Incorporate Exception, Discrepancy, and Unmanifested Waste Reports into e-Manifest system
  - Revise the manifest forms so that manifest data for import and export shipments can be recorded more clearly on them
  - Remove the requirement for TSDFs and other receiving facilities to mail paper copies of manifests to unregistered generators
  - Make technical and conforming revisions, including the PCB manifest regulations under TSCA
- Public comments are being accepted until <u>May 31, 2022</u>, in the <u>Federal Register</u> under docket number EPA-HQ-OLEM-2021-0609
