Section 131.206 [Removed]

§ 131.206 [Removed]
4. Remove § 131.206.

Dated: January 9, 2009.
Leslye M. Fraser,
Director, Office of Regulations and Policy,
Center for Food Safety and Applied Nutrition.

[m] Label declaration. Each of the ingredients used in the food shall be declared on the label as required by the applicable sections of parts 101 and 130 of this chapter.

§ 131.203 [Removed]
3. Remove § 131.203.

§ 131.206 [Removed]
4. Remove § 131.206.

Dated: January 12, 2009.

Stephen L. Johnson,
Administrator.

Prevention of Significant Deterioration (PSD) and Nonattainment New Source Review (NSR): Debottlenecking

AGENCY: Environmental Protection Agency (EPA).

ACTION: Withdrawal of proposed rule.

SUMMARY: The EPA is withdrawing the proposed rule for “debottlenecking” published in the Federal Register on September 14, 2006. Debottlenecking is a concept used in the EPA’s New Source Review (NSR) program and refers to how emissions from units upstream and downstream from the unit(s) undergoing a physical or operational change are included in the calculation of an emissions increase for the project. The intent of the September 14, 2006 proposal was to clarify how to consider emissions increases and decreases when determining major NSR applicability for sources that undergo a modification(s). Two other NSR elements included in that proposal—aggregation and project netting—are discussed in a separate document published in the “Rules and Regulations” section of this Federal Register.

The decision to withdraw the rule proposal for debottlenecking is due to a variety of concerns raised by commenters on the viability of each of the proposed options. Regarding our preferred option, legal causation, we proposed to apply a “but for” legal cause test to account for debottlenecked emissions. However, limiting its application to only Prevention of Significant Deterioration and NSR permits, as several commenters suggested, would have severely narrowed its utility and required devising another regulatory strategy for nonqualifying permits. With respect to the other two proposed options, we had difficulty in finding workable solutions to some of the implementation issues raised by commenters. In light of the complexities we encountered with the proposed options, we have decided to withdraw the proposed rule for debottlenecking.

DATES: On January 15, 2009, the EPA hereby withdraws the proposed rule for NSR Debottlenecking published at 71 FR 54235.

Approval and Promulgation of Air Quality Implementation Plans; Texas; Approval of the Section 110(a)(1) Maintenance Plan for the 1997 8-Hour Ozone Standard for El Paso County

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a revision to the Texas State Implementation Plan (SIP). The revision consists of a maintenance plan for El Paso County developed to ensure continued attainment of the 8-hour ozone National Ambient Air Quality Standard (NAAQS) for 10 years after the effective designation date of June 15, 2004. The Maintenance Plan meets the requirements of Section 110(a)(1) of the Federal Clean Air Act (CAA), EPA’s rules, and is consistent with EPA’s guidance.

DATES: Written comments should be received on or before February 17, 2009.

ADDRESSES: Please see the related direct final rule, which is located in the “Rules and Regulations” section of this Federal Register, for detailed instructions on how to submit comments.

Approval and Promulgation of Air Quality Implementation Plans; Arkansas; Emissions Inventory for the Crittenden County Ozone Nonattainment Area; Emissions Statements

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve a revision to the Arkansas State Implementation Plan (SIP) to meet the Emissions Inventory and Emissions Statements requirements of the Clean Air Act.
