

An Open Solution to Reporting and Using TSCA Information

Office of Chemical Safety and Pollution Prevention

US EPA

Matthew Leopard

Environmental Information Symposium

5/11/2010

3:30 pm – 4:30 pm

About The Toxic Substance Control Act (TSCA)

- What is TSCA?
- Information Management Challenges:
 - Submitting and Managing Confidential Business Information (CBI)
 - Complexities of Chemical Information
 - Interfacing w. User Communities
- Goal: Modernize to support “One EPA” and more Transparency

Today Panel

- **Chemical Reporting and Access** - Industry's perspective on European Union Solution
Paul Brigandi - CGI
- **Chemical Nomenclature** - Recent advances in Substance Registry System as a "One Stop Source"
John Harman – EPA
- **Chemical Information Access** - Leveraging enterprise solutions (e.g. Envirofacts) as "One EPA"
Dalroy Ward - EPA
