This analysis assumes that the Clean Air Interstate Rule is not in effect. It does reflect other federal and state requirements to reduce emissions contributing to ozone and fine particle pollution that were in place as of December 2010.

The 1997 Ozone Standard is an 8-hour average of 0.08 parts per million

The 1997 Fine Particle Standard is an annual average of 15 micrograms per cubic meter.

The 2006 Fine Particle Standard is a 24-hour average of 35 micrograms per cubic meter.
