

Capturing New CHP Opportunities -- Maybe in Your Own Backyard

Claudia Tighe, Program Manager

U.S. EPA CHP Partnership

*EPA's Clean DG Policy and CHP Webinar Series
March 18, 2010*

Topics of Today's Discussion

- CHP proven technology available now, with nationally recognized energy, economic, and environmental benefits
- CHP's feasibility apparent in traditional and untapped market sectors
- While some barriers, there are State and Federal legislation/incentives in place and others being considered that can help CHP applications
- CHP "player" in energy efficiency scenarios i.e. smart growth, smart grid, green jobs, carbon policies.
- EPA and DOE provide resources to assist CHP facility development
