REPLY AND COMMENT!

I would like to take the time to complain not only about the status of my neighborhood but also the neighborhoods that I commute through. There are many unused lots, waste sites, sites that emit radiation, and sewage problems in many low-income areas. This is a mockery of human rights, in which promotes class and capitalism. If repair or production is made in these communities it is VERY slow to occur. I will personally join any forces and organizations in order to rise and commit to action to ensure that families, communities, and its children are protected. Something needs to be done NOW!
