

You're Invited!

U.S. EPA Roundtable Breakfast

The EPA Coalbed Methane Outreach Program (CMOP) would like to invite you to a roundtable breakfast meeting to discuss issues concerning the recovery and use of coalmine methane (CMM) in the United States. The meeting is intended to be an informal setting where participants can:

- Learn more about EPA's coalmine methane outreach program and its efforts to promote CMM recovery and utilization;
- Discuss legal and regulatory barriers that hinder CMM development at coalmines; and
- Develop ideas for ways that EPA and the coal industry can work together on coal mine methane projects.

The CMOP team values the input received from the coal mining industry and we look forward to your participation.

U.S. EPA Roundtable Breakfast
Wednesday, June 14, 2006, 7:30AM - 9:00AM
Pittsburgh Marriott City Center
112 Washington Place, Pittsburgh, PA 15215

Participation is free, but we do need a head count.
Please e-mail your name and contact information to cmop@epa.gov by June 9th.
