

CITGO Global Refinery Settlement Fact Sheet

Geography: Six affected refineries

Savannah, Ga.
Lemont, Ill.
Corpus Christi, Texas
Lake Charles, La (2 refineries)
Paulsboro, N.J.

Industry Capacity:

760,300 barrels of oil per day
5 percent of industry capacity
5th largest refiner to settle under EPA's Petroleum Refinery Initiative
(BP, Motiva, Marathon Ashland Petroleum and Chevron are larger
–see Petroleum Refinery Initiative Fact Sheet)

Emissions reductions:

Nitrogen Oxide (NO_x) reduced by over 7,000 tons per year
Sulfur Dioxide (SO₂) reduced by over 23,000 tons per year
Particulate Matter (PM) reduced by over 900 tons per year

Injunctive Relief:

1. More than \$320 million to be spent on injunctive relief through 2011
2. Guaranteed SO₂ and PM emission reductions at Lemont, Lake Charles and Corpus Christi
3. Guaranteed NO_x emission reductions at Lemont, Lake Charles, Corpus Christi, Paulsboro and Savannah
4. Commitment to reduce the number and severity of major flaring events at all facilities
5. Commitment to implement enhanced procedures to reduce benzene emissions and VOC leaks from valves and other equipment at all facilities

Penalty: \$3.6 million cash (includes \$1.3 million to be paid to participating states)

Supplemental Environmental Project: CITGO will replace three gas-fired compressors with an electric compressor at its Corpus Christi, Texas, refinery.
