

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

OFFICE OF
ENFORCEMENT AND
COMPLIANCE ASSURANCE

**Hunt Refining Company and Hunt Southland Refining Company
Settlements Fact Sheet**

Geography: Three refineries:

- Tuscaloosa, Alabama
- Sandersville, Mississippi
- Lumberton, Mississippi

Industry Capacity:

- Approximately 70,000 thousand barrels of oil/day
- Under 1 percent of U.S. domestic refining capacity

Emissions reductions:

- Nitrogen oxide (NO_x) reduced by about 150 tons per year
- Sulfur dioxide (SO₂) reduced by about 1,100 tons per year

Injunctive Relief:

- More than \$48 million will have been spent on injunctive relief through 2011
- Commitment to reduce the number and severity of major flaring events
- Commitment to implement enhanced procedures to reduce benzene emissions and volatile organic compound leaks from valves and other equipment at all facilities

Penalty: \$400,000 (includes \$200,000 to be paid to participating state partners)

Supplemental Environmental Projects: \$475,000

- \$95,000 community-based SEP near the Tuscaloosa and Sandersville Refineries, including emergency preparedness, training and equipment for fire, rescue and hazardous materials community responders in Vicksburg, Mississippi and Choctaw County, Alabama.
- \$380,000 for additional reductions of volatile organic emissions from refinery wastewater systems.

State Partners: Alabama and Mississippi
