National Black Police Association, Inc.

Resolution

Whereas, the National Black Police Association (NBPA) was organized in 1972 and established as a community-based advocacy organization. The principal concerns are law enforcement issues and the effects of those issues on the total community in general and the Black community in particular. The NBPA serves as a national network for training and educating peace officers and other criminal justice practitioners.

Whereas, good stewardship of natural resources includes enforcement of environmental laws which helps ensure a high quality of life for current and future generations.

Whereas, the National Environmental Crime Prevention Week promotes awareness and education among citizens and enforcement personnel to increase the identification and prosecution of environmental crimes.

Whereas, national public and private environmental and law enforcement organizations across the country such as the United States Environmental protection Agency, the International Association of Chiefs of Police and the National Organization of Black Law Enforcement Executives and others also support the National Environmental Crime Prevention Week.

Therefore Be It Resolved, that the **National Black Police Association, Inc.** hereby supports the National Environmental Crime Prevention Week as a means to help stop environmental criminal activity and protect communities across the country.

Marcus G. Jones
National Chairman
