

# Household Hazardous Waste Management

## A Manual for One-Day Community Collection Programs

**Recycled/Recyclable**

Printed on paper that contains at least 50% recycled fiber

## ABOUT THIS HANDBOOK

**T**his handbook is designed to help communities plan and operate a successful household hazardous waste (HHW) collection program. The handbook focuses on one-day drop-off programs. Other types of HHW collection programs—permanent, mobile, and special—are not discussed in detail.

The handbook is intended for community leaders and HHW collection program organizers. It provides guidance for all aspects of planning, organizing, and publicizing a HHW collection program. It does not provide technical information about the treatment, disposal, or transport of HHW. These jobs are performed by professional contractors or others with specialized training. The manual includes information about selecting a qualified hazardous waste contractor
