

Code	Name	Description	DFlag	Snum
COR	Corrected	Result remark indicates that result value was adjusted to compensate for factors known to influence the value	Y	1
CNT	Contamination	Result remark indicates that result value may reflect suspected or known sample contamination	Y	2
NRR	No Result Reported	Result remark indicates that no result value is stored in the database	Y	3
LIM	Limit	Result remark indicates that result value was outside of the acceptable limit(s)	Y	4
QCF	QC Failed	Result remark indicates that a quality control sample for the analysis produced results that failed to meet the acceptance criteria	Y	5
QCS	QC Setup	Result remark indicates that a quality control setup procedure for the analysis failed to meet the acceptance criteria	Y	6
PRC	Procedure	Result remark indicates that the procedure used to obtain the result deviated from the standard procedure	Y	7
EST	Estimated Value	Result remark indicates that result value is considered to be close to the true value but that the true value is not known	Y	8
HND	Handling	Result remark indicates that the result value may reflect improper sample handling	Y	9
OTHER	Other	Result remark indicates conditions other than those presented in this list	Y	10
