

Code	Name	Description	DFlag	SNum
UP	Upstream/Upgradient	The station is located upstream from the pollutant source (i.e., station is "above" pollutant discharge point, relative to the water flow direction)	Y	1
DOWN	Downstream/Downgradient	The station is located downstream from the pollutant source (i.e., station is "below" pollutant discharge point, relative to the water flow direction)	Y	2
CROSS	Crossstream/Crossgradient	The station is located crossstream from the pollutant source (i.e., station is "across" from the pollutant discharge point, relative to the water flow direction)	Y	3
IN	Instream/Ingradient	The station is located instream of the pollutant source (i.e., station is "at" pollutant discharge point)	Y	4
N/A	Not Applicable	The station is not intentionally located above, below, across or in the flow of a pollutant source (i.e., there is no relationship between the station and a known pollutant source being studied)	Y	5
OTHER	Other	The spatial relation between the station and a pollutant source is other than one presented in this list	Y	6
UNKWN	Unknown	The spatial relation between the station and a pollutant source is unknown or unspecified	Y	7
