

Statvali.xls

Code	Name	Description	DFlag	SNum
NVAL	Not validated	Validation of result was not performed	Y	1
PASSVAL	Passed validation	Passed validation checks. Any necessary corrections for system, sampling, and measurement error have been made. Result also meets project data quality objectives (i.e., DQOs)	Y	2
FAILVAL-S	Failed validation, scientific	Failed validation due to scientific reasons. System, sampling, and/or measurement error rendered the result value scientifically unacceptable. There is a lack of scientific confidence in the result value itself	Y	3
FAILVAL-P	Failed validation, programmatic	Failed validation due to programmatic reasons. Result did not meet project data quality objectives (DQOs) even though it MAY have met scientific criteria for system, sampling, and/or measurement error tolerance	Y	4
FAILVAL-O	Failed validation, other	Failed validation due to other reasons. Result may have met programmatic and scientific criteria but it was deemed invalid due to some other rationale (e.g., professional judgement)	Y	5
UNKWN	Unknown	Validation status is unknown or unspecified	Y	6
