

Statveri.xls

Code	Name	Description	DFlag	SNum
NVER	Not verified	Verification of result was not performed	Y	1
PASSVER	Passed verification	Passed verification checks. Any necessary corrections for measurement errors have been made. Result also meets measurement quality objectives (MQOs) set by the project	Y	2
FAILVER-S	Failed verification, scientific	Failed verification due to scientific reasons. Measurement error alone rendered the result value scientifically unacceptable. There is a lack of scientific confidence in the result value itself	Y	3
FAILVER-P	Failed verification, programmatic	Failed verification due to programmatic reasons. Result did not meet measurement quality objectives (MQOs) even though it MAY have met general scientific criteria for measurement error	Y	4
FAILVER-O	Failed verification, other	Failed verification due to other reasons. Result may have met programmatic and scientific criteria for measurement error but it was deemed invalid due to some other rationale (e.g., professional judgement)	Y	5
UNKWN	Unknown	Verification status is unknown	Y	6
