

## Fortune 500® Partners List (as of January 5, 2011)

This list represents Green Power Partners that also appear on the Fortune 500® list. EPA's list of Fortune 500 Partners has grown to nearly 70 companies buying more than 8.7 billion kilowatt-hours (kWh) of green power, the equivalent environmental impact of avoiding the annual carbon dioxide emissions from electricity use of more than 676,000 average American homes.

Annual Green Power Usage (kWh)	GP % of Total Electricity Use*	Organization Type	Providers (listed in descending order by kWh supplied to Partner)	Green Power Resources
<b>1. <a href="#">Intel Corporation</a></b>				
2,502,052,000	88%	Information Technology	Sterling Planet°, On-site Generation, PNM	Biomass, Geothermal, Small-Hydro, Solar, Wind
<b>2. <a href="#">Kohl's Department Stores</a></b>				
1,418,065,000	100%	Retail	3Degrees°, Sterling Planet°, Nexant°, On-site Generation, Sacramento Municipal Utility District°, City of Dover°	Biomass, Small-hydro, Solar, Wind
<b>3. <a href="#">Whole Foods Market</a></b>

## Fortune 500 List (as of January 5, 2011)

<b>Annual Green Power Usage (kWh)</b>	<b>GP % of Total Electricity Use*</b>	<b>Organization Type</b>	<b>Providers (listed in descending order by kWh supplied to Partner)</b>	<b>Green Power Resources</b>
149,765	10%	Industrial Goods & Srvcs.	Green Mountain Energy	Wind

\*Reflects the amount of green power as a percentage of total electricity use. Partners choosing to purchase green power in an amount exceeding 100 percent of their U.S. organization-wide electricity use are listed as such.

°Indicates Provider is selling Partner a third-party certified green power product. For more information on third-party certification, visit <http://www.epa.gov/greenpower/buygp/certified.htm>.

## Fortune 500® Partners List (as of April 6, 2011)

This list represents Green Power Partners that also appear on the Fortune 500® list. EPA's list of Fortune 500 Partners has grown to nearly 70 companies buying nearly 8.7 billion kilowatt-hours (kWh) of green power, the equivalent environmental impact of avoiding the annual carbon dioxide emissions from electricity use of more than 726,000 average American homes.

<b>69. <a href="#">United Parcel Service (UPS) / 4 CA Facilities</a></b>				

## Fortune 500 List (as of April 6, 2011)

Annual Green Power Usage (kWh)	GP % of Total Electricity Use*	Organization Type	Providers (listed in descending order by kWh supplied to Partner)	Green Power Resources
165,321	71%	Transport & Shipping	On-site Generation	Solar
<b>70. <a href="#">John Deere Co. / Dallas, TX Parts Depot</a></b>				
149,765	10%	Industrial Goods & Srvcs.	Green Mountain Energy	Wind

\*Reflects the amount of green power as a percentage of total electricity use. Partners choosing to purchase green power in an amount exceeding 100 percent of their U.S. organization-wide electricity use are listed as such.

°Indicates Provider is selling Partner a third-party certified green power product. For more information on third-party certification, visit <http://www.epa.gov/greenpower/buygp/certified.htm>.

## Fortune 500® Partners List (as of July 6, 2011)

This list represents Green Power Partners that also appear on the Fortune 500® list. EPA's list of Fortune 500 Partners has grown to 69 companies buying nearly 8.8 billion kilowatt-hours (kWh) of green power, the equivalent environmental impact of avoiding the annual carbon dioxide emissions from electricity use of more than 760,000 average American homes.

\*Reflects the amount of green power as a percentage of total electricity use. Partners choosing to purchase green power in an amount exceeding 100 percent of their U.S. organization-wide electricity use are listed as such.

° Indicates Provider is selling Partner a third-party certified green power product. For more information on third-party certification, visit <http://www.epa.gov/greenpower/buygp/certified.htm>.

# Fortune 500® Partners List

As of October 5, 2011

The Green Power Partnership works with a wide variety of leading organizations — from Fortune 500® companies to local, state and federal governments, and a growing number of colleges and universities. The following Top Partner Rankings highlight the annual green power purchases of leading organizations within the United States and across individual industry sectors.

These green power purchases help reduce the environmental impacts of electricity use and support the development of new renewable generation capacity nationwide. Purchase amounts reflect U.S. operations only and are sourced from U.S.-based green power resources. Organizations can meet EPA purchase requirements using any combination of three different product options (1) Renewable Energy Certificates, (2) On-site generation, and (3) Utility green power products.

Purchase figures are based on annualized Partner contract amounts (kilowatt-hours), not calendar year totals. These rankings are updated on a quarterly schedule. Find out how your organization can partner with EPA today! To view a top partner list, select from the chart below:

This list represents Green Power Partners that also appear on the Fortune 500® list. EPA's list of Fortune 500 Partners consists of 77 companies buying more than 9.3 billion kilowatt-hours (kWh) of green power, the equivalent environmental impact of avoiding the annual carbon dioxide emissions from electricity use of more than 802,000 average American homes.
