

## Appendix F: TSCA Framework for Regulating PCBs -- Summary

---

TSCA §6(e) and regulations at 40CFR761 outline an elaborate system for allowable PCB uses / activities, and conditions associated with use, clean-up, and disposal for each activity.

TSCA regulations and policy specify:

<b>Allowable USES / ACTIVITIES</b>	<b>DISPOSAL / STORAGE</b>	<b>PCB Remediation</b>	<b>RECORDKEEPING</b>
<p><i>Criteria for compliance:</i></p> <p>All PCB uses or activities are banned UNLESS they fit into a specifically listed category</p>	<p><i>Criteria for compliance:</i></p> <p>Date Pollutant form Concentration</p>	<p><i>Criteria for compliance:</i></p> <p>Location of spill Quantity spilled Concentration released Date spilled</p> <p>(reporting, disposal, and pre-cleanup requirements are consistent with requirements in other statutes)</p>	<p><i>Criteria for compliance:</i></p> <p>What is used, stored, or disposed</p>
