

Appendix H4: Wisconsin PCB Emissions (Air point sources, 1992 Data)

SIC Code/SIC Name	Number of Facilities	Total Hg Emissions (pounds/yr)	Range of Releases (pounds/yr)
26 Paper and Allied Products			
2631 Paperboard Mills	1	0.396	0.396
2679 Converted Paper Products, NEC	1	1.188	1.188
82 Health Services			
8091 Health and Allied Services, NEC	1	0.5	0.5
TOTALS:	3	2.084	.396 - 1.188

NOTE: This table shows the facilities (by SIC code) that reported mercury emissions under Wisconsin's Clean Air Act Title V Operating Permits Program. Under the Title V Program, states may impose fees up to \$25/ton of emissions of all eligible substances. In Wisconsin, facilities report emissions that exceed 1 pound.

In some cases, mercury emissions may be linked to processes such as fuel combustion that are independent of SIC codes.

KEY:

Number of Facilities = # of facilities reporting emissions equal or greater than 1 lb.

Total Emissions = total Hg emissions from all sources reporting in each SIC Code.

Range = range of reported releases from all sources reporting in each SIC Code.
