

Dave Gustashaw

Dave has a B.S.M.E. in mechanical engineering from the University of Florida. He has worked as a mechanical engineer for over 27 years, and has held positions ranging from design to management.

Dave is currently employed by Interface Americas as Vice President of Engineering. He is responsible for the efficient and effective use of raw materials and energy for Interface Americas facilities. He serves on WRI's Green Power Market Development Group. Dave assisted the City of LaGrange, Georgia in the identification and development of this landfill gas project.
