NETs Page C-4, 4b: FY 2006 - FY 2010 Criminal Enforcement Program Activities	
<b>Note 1</b>	Prior FY dollar figures on the first page of this document are adjusted to reflect the value in FY 2010 dollars based on the average fiscal year value of the U.S. Department of Labor Consumer Price Index for All Urban Consumers.
<b>Note 2</b>	Counter-terrorism investigation initiations are excluded from Criminal Enforcement Program statistics.
<b>Note 3</b>	Sentencing-related statistics fluctuate from year to year based on the specific nature and characteristics of the cases prosecuted. In addition, the aggregate results of incarceration in FY 2006 were impacted (and may be impacted in the future) by Supreme Court decisions making the Federal Sentencing Guidelines discretionary. In FY 2006, aggregate jail sentences were about 35 years less due to the downward variances in sentencing.
<b>Note 4</b>	Years of Incarceration are represented to the nearest whole year.
