

EPA's National Bed Bug Summit
April 14th and 15th, 2009
Agenda

Sheraton Crystal City Hotel
1800 Jefferson Davis Highway
Arlington, Virginia 22202
www.sheraton.com/crystalcity

Meeting Goals and Objectives:

- Share information on topics including the expanding effect of bed bugs on the housing, hospitality, and other industries/sectors; the scope and extent of the problem; factors contributing to the growing problem; current detection and control tools; the response of public health and government; and future prospects for control methods and tools.
- Provide a venue to communicate with others in the diverse community affected by the growing bed bug problem.
- Identify ideas and options for bed bug prevention, control, management, and strategies for outreach and education.
- Develop recommendations for action for participating and affected stakeholders.

Who Should Attend?

- Government agencies which manage housing, regulate pest management, protect public health
- Industry sectors affected by bedbugs, such as housing, hospitality, furniture rental, health care, assisted living
- Pest management industry, including companies and/or individuals who perform bed bug inspections or treatment, and manufacturers of chemicals and other treatment technologies
- Academics, IPM practitioners, extension officials

This Summit is being held under the auspices of EPA's Pesticide Program Dialogue Committee.
