Re: Auto Salvage Yards Certification Program

Dear

We are happy that you are willing to assist us in the development of the new environmental compliance certification program for auto salvage yard facilities. Enclosed you will find draft versions of the certification materials that have been developed for these facilities. In preparation for a meeting to be held on **Thursday, January 25th, from 1:30-3:30 PM in Room 300 at DEM offices at 235 Promenade Street**, please review the Auto Salvage Yards Certification Workbook and Certification Checklist Package prior to the meeting. In order to expedite review of the documents and better focus the meeting's discussions, it would be helpful if you make notes of any comments or suggestions that you wish to bring up at the meeting.

I would ask that you bring these documents with you to the meeting. The main purpose of the meeting will be to receive any comments, concerns, or suggestions that you may have regarding the materials and the new program.

Thanks again for your support, and I look forward to seeing you on January 25th. If you have any questions, please feel free to call me at 401-222-4700, Ext. 4412 or contact me by email at thomas.armstrong@dem.ri.gov.

Sincerely,

Thomas E. Armstrong
Principal Environmental Planner
