Re: Auto Salvage Yards Certification Program

Dear

We appreciate your assistance in the development of the new environmental compliance certification program for auto salvage yard facilities. Enclosed you will find the latest draft versions of the certification materials that have been developed, incorporating feedback from the last stakeholder meeting held on January 25th.

In preparation for the next meeting to be held on **Tuesday, March 6th, from 1:30-3:30 PM in Room 300 at DEM offices at 235 Promenade Street**, please review the latest draft Auto Salvage Yards Certification Workbook and Certification Checklist Package prior to the meeting. In order to expedite review of the documents and better focus the meeting's discussions, it would be helpful if you make notes of any comments or suggestions that you wish to bring up at the meeting.

I would ask that you bring these documents with you to the meeting. The main purpose of the meeting will again be to receive any comments, concerns, or suggestions that you may have regarding the draft materials and the new program. We are hoping to finalize the documents after this meeting, and prepare to introduce the program this spring.

Thanks again for your support, and I look forward to seeing you on March 6th. If you have any questions, please feel free to call me at 401-222-4700, Ext. 4412, or contact me by email at thomas.armstrong@dem.ri.gov.

Sincerely,

Thomas E. Armstrong
