

**WATER QUALITY BIBLIOGRAPHY
2000-2005**

**Long Term Goal 4
Journal Articles**

- (1) Barth, E., Talbot, N., Gabel, R., and Robinson, T. Evaluation of bioaerosol exposures during conditioning of biofilter organic media beds. *Applied Occupational and Environmental Hygiene Journal* 2000; 17(1):10-4.
- (2) Barth, E., Rupert, R., Stroud, F., Rice, E., and Potoka, B. Environmental response to intentional dissemination of *Bacillus anthracis* spores in the United States-2001. *Remediation Journal* 2003; 13(2):99-111.
- (3) Bastian, R.K., Smith, J.E.Jr. Is it really Class A? Many treatment processes claim to produce Class A biosolids, but they may not actually meet 40 CFR 503 requirements. *Water Environment and Technology* 2001; 13(5):39-43.
- (4) Gerba, C.P., Smith, J.E. Sources of pathogenic microorganisms and their fate during land application of wastes. *Journal of Environmental Quality* 2005; 34(1):42-8.
- (5) Meckes, M.C., MacDonald, J.A. Evaluation of a DNA probe test kit for detection of Salmonellae in biosolids. *Journal of Applied Microbiology* 2003; 94(3):382-7.
- (6) Meckes, M.C., Johnson, C.H., and Rice, E.W. Survival of Salmonella in waste egg wash water. *Journal of Food Protection* 2003; 66(2):233-6.
- (7) Neely, A.N., Gallardo, V., Barth, E., Haugland, R.A., Warden, G.D., and Vesper, S.J. Rapid monitoring by quantitative polymerase chain reaction for pathogenic *Aspergillus* during carpet removal from a hospital. *Infection Control and Hospital Epidemiology* 2004; 25(4):350-2.
- (8) Romine, J.D., Barth, E.F. Preliminary assessment of worker and ambient air exposures during soil remediation technology demonstration. *AIHA Journal* 2002; 63(1):76-80.
- (9) Smith, J.E., Perdek, J.M. Assessment and management of watershed microbial contaminants. *Critical Reviews in Environmental Science and Technology* 2004; 34(2):109-39.
- (10) Tsang, K.R., Smith, J.E. Challenges in sludge stabilization: Regulatory compliance in the design and operation of facilities. *Journal of Environmental Engineering-Asce* 2005; 131(6):834-7.

Long Term Goal 4

Books and Book Chapters

- (1) Smith, J.E.Jr. 2000. Infectious Disease Issues Related to Working with Sewage Sludge and Other Feedstocks and Applying Them Following Treatment to Land. Proceedings of the US Composting Council's 10th Annual Conference, Renaissance Cleveland Hotel, Tower City Center; Cleveland, OH; November 12-14, 2000.
- (2) Smith, J.E.Jr., Milner, P. Goldstein, N. June 2001. Highlights, insights, and perspectives on infectious disease agents in sewage sludge and animal manure in the U.S. In: Smith, J.E.Jr., Milner, P., Jakubowski, W., Goldstein, N. and Rynk, R. eds. Contemporary Perspectives on Infectious Disease Agents in Sewage Sludge and Manure. The JG Press, Inc., Emmaus, PA.
- (3) Smith, J.E.Jr. and Brobst, R.B. 2001. The US Position on Fate of Pathogens in Sewage Sludge and the US 40CFR503 Regulation Proceedings of the European Biosolids & Organic Residuals Conference, Workshop and Exhibition on Biosolids and Organic Residuals, November 11-14, 2001 in the Cedar Court Hotel, Wakefield, England.
- (4) Smith, J.E.Jr. and Brobst, R.B. 2001. Changing Approaches to Controlling Pathogens in Biosolids and Their Vector Attractiveness, Proceedings of ASCE's World Water & Environmental Resources Congress 2001 in Orlando, Florida; May 20-24, 2001. Section 1, Chapter 63.
- (5) Smith, J.E.Jr. 2001. Class A Process Usage and Related Issues: A Pathogen Equivalency Committee Perspective, Proceedings of the 6th Annual Central States Water Environment Association Education Seminar: Trends and Issues in Biosolids Stabilization, The Making of Black Gold, Monona Terrace Convention Center, Madison, WI, March 27, 2001.
- (6) Smith, J.E.Jr. and Brobst, R.B. 2003. Issues with Determining Equivalency of a New Biosolids Process to One that Further Reduces Pathogens (PFRP). Proceedings of the World Water and Environmental Resources Congress, June 23-26, 2003, Philadelphia, Pennsylvania, Environmental and Water Resources Institute (EWRI) of the American Society of Civil Engineers. World Water & Environmental Resources Congress 2003 and Related Symposia.

Long Term Goal 4

EPA Reports

- (1) U.S.Environmental Protection Agency. 2004. Results of the Interlaboratory Validation of EPA Method 1682 for Salmonella in Biosolids. September, 2004. EPA-821-B-04-008. U.S. EPA, Office of Water, Washington, DC.
- (2) U.S.Environmental Protection Agency. 2004. Results of the Interlaboratory Validation of EPA Methods 1680 (LTB/EC) and 1681 (A-1) for Fecal Coliforms in Biosolids. September, 2004. EPA-821-B-04-007. U.S. EPA, Office of Water, Washington, DC.
- (3) U.S.Environmental Protection Agency. 2005. Method 1682: *Salmonella* in Sewage Sludge (Biosolids) by Modified Semisolid Rappaport-Vassiliadis (MSRV) Medium. June, 2005. EPA-821-R-04-028 URL <http://www.epa.gov/waterscience/methods/biosolids/EPA.Method.1682.Sep2005.pdf>. U.S. EPA, Office of Water, Washington, DC 48 pp.
- (4) U.S.Environmental Protection Agency. 2005. Method 1681: Fecal Coliforms in Sewage Sludge (Biosolids) by Multiple-Tube Fermentation using A-1 medium. June, 2005, EPA-821-R-04-027. U.S. EPA, Office of Water, Washington, DC. 50 pp.
- (5) U.S.Environmental Protection Agency. 2005. Method 1680: Fecal Coliforms in Sewage Sludge (Biosolids) by Multiple-Tube Fermentation using Lauryl Tryptose Broth (LTB) and EC Medium. June, 2005. EPA-821-R-04-026. U.S. EPA, Office of Water, Washington, DC. 51 pp.
