Response to Public Comment

Washington DC-MD-VA ozone post-96 rate of progress SIP Adequacy Determination

Before the 1999 ROP was submitted to EPA, consultation among federal, State, and local agencies occurred; full implementation plan documentation was provided to EPA. We reviewed all comments pertaining to the 1999 ROP plan and the Washington Region's response to these comments was satisfactory.

Please contact Paul T. Wentworth at 215-814-2183 if there are any questions concerning this adequacy determination.
