RE: Request for Correction (RFC #10007) - *EPA's Action Plan for Bisphenol A*

Dear Dr. Hentges:

I would like to provide you with a status update regarding your Information Quality Guidelines Request for Correction (RFC #10007) submitted to the Environmental Protection Agency on August 2, 2010. Although our goal is to respond to requests within 90 days upon receipt, we were not able to send you a response on November 1st as anticipated. The Agency has completed a draft response to your RFC. This response is undergoing final agency review. Our goal for sending a final response will be within 90 days from November 1st.

Thank you for your interest in environmental information quality.

Sincerely,

A handwritten signature in cursive script that reads "Katherine Chalfant".

Katherine Chalfant
Acting Director, Quality Staff
