RE: Interim Response to Request for Correction (RFC#11702) pursuant to United States
Environmental Protection Agency (EPA) Information Quality Guidelines

Dear Dr. Seaver:

I want to provide you with a status update regarding your July 5, 2003 request for correction submitted under the EPA Information Quality Guidelines. These guidelines state that it is EPA's goal to respond to each request for correction within 90 days of receipt either by providing a decision on the request, or, if the request will require more than 90 calendar days to resolve, informing the complainant that more time is required.

EPA is preparing a response to your request but will require additional time to coordinate Agency review of the response. We anticipate that a response providing the Agency's decision will be forwarded to you within 30 days. Thank you for your interest in environmental information quality. Should you have any questions, please contact me at (202) 566-0608.

Sincerely,

Steve Young
Acting Director
Environmental Analysis Division
Office of Environmental Information, US EPA
