RE: U.S. EPA Permit Application Number MI-103-5W20-0002.

Dear Mr. Micham,

The Grand Portage Tribe/Band is aware of the proposed sulfide mine located in the Yellow Dog Plains of Marquette County, Upper Peninsula of Michigan known as the Kennecott Eagle Minerals Company; Eagle Mine Project; **U.S. EPA Permit Application Number MI-103-5W20-0002.**

The Grand Portage Tribe/band is officially requesting to be a consulting party in this project. The above proposed mine will undoubtedly destroy sacred/traditional cultural resources of the Anishinaabe.

Sincerely,
Victoria L. Raske
