

**PUBLIC NOTICE**  
**U.S. EPA Proposes Hidden Lane Landfill Site**  
**In Sterling, Virginia**  
**For National Priorities List (Superfund)**

The U.S. Environmental Protection Agency (EPA) is proposing to add the Hidden Lane Landfill Site to the National Priorities List (NPL). Once added to the NPL, the Hidden Lane Landfill Site would be eligible for funding from the federal Superfund cleanup program. The NPL is a list of sites with hazardous contaminants that may impact people or the environment.

The Hidden Lane Landfill Site was a 35-acre privately owned and operated disposal facility. It is located in Sterling, Virginia, north of Virginia Route 7, between the Broad Run Farms and Countryside communities. The site is immediately adjacent to the floodplain of the Potomac River. In 1989, trichloroethylene (TCE), a degreasing solvent, was detected in drinking water wells of some homes in the Broad Run Farms subdivision just west of the landfill. County and state health officials named the Hidden Lane Landfill as the likely source of the TCE.

**PUBLIC MEETING**

EPA invites the community to submit comments and ask questions at a Public Meeting to discuss the proposed addition of the Hidden Lane Landfill Site to the NPL.

**Wednesday, October 24, 2007**

**7:00 – 9:00 p.m.**

**Galilee United Methodist Church**  
**45425 Winding Road**  
**Sterling, Virginia**

The public is invited to comment on the proposed addition of the site to the NPL during a 60-day Public Comment Period, which ends November 19, 2007. Send written comments to: Docket Coordinator; U.S. EPA Headquarters; CERCLA Docket Office; Mail Code 5305T; 1200 Pennsylvania Avenue, NW; Washington, DC 20460; or send comments through the website: [www.regulations.gov](http://www.regulations.gov)
