

RCRA Corrective Action Training Program: Getting to YES! *Strategies for Meeting the 2020 Vision*

This training and training documents do not create any legally binding requirements on the U.S. Environmental Protection Agency (EPA), states, or the regulated community, and do not create any right or benefit, substantive or procedural. The training and documentation are not a complete representation of the Resource Conservation and Recovery Act or of EPA's regulations and views.

Module 10

Corrective Action Optimization Tools and Challenge Exercise

Module Overview

- ❖ Review concepts covered in Modules 1 through 9
- ❖ Provide a summary reference of approaches and tools
- ❖ Review and discuss these concepts – share ideas and examples of group

Challenge Exercise

- ❖ Which tools are you:
 - Currently using?
 - Intend to use?
 - Would like to use but can't?
- ❖ What are the potential obstacles or limitations:
 - Legal / regulatory?
 - Policy?
 - Technical or resources?

Obstacles

Optimization Tool	Currently Used	Intend to Use	Would Like to Use, But	Legal/ Regulatory	Policy	Technical or Resource
<i>Regulatory approach</i>						
Performance-based permit	√	√				
Facility-lead agreement		√				
Parcel Transfer		√				

Summary

- ❖ Concepts discussed to date can be applied using a variety of practical approaches and streamlining tools.
- ❖ Tools and resources are available to support implementation of these concepts.
- ❖ To GET TO YES, focus on progress rather than process.
