

## **Region 3 GPRA Baseline RCRA Corrective Action Facility**

# **SKF USA Inc.**

**1000 Logan Boulevard  
Altoona, PA 16602  
Congressional District 9  
EPA ID #: PAD004344172  
Last Updated: 06/04/2008**

## **Current Progress at the Site**

---

This facility is one of EPA Region III's high priority RCRA corrective action sites. EPA and EPA's contractor recently conducted an Environmental Indicator (EI) inspection at this facility to determine if RCRA Corrective Action is necessary. On July 26, 2004, EPA has determined that Current Human Exposures Under Control Environmental Indicators has been met.

Groundwater contamination investigation is currently being performed at the facility to determine the extent of releases.

## **Site Description**

---

The SKF USA Inc. (SKF) facility was a bearing-manufacturing facility located south of the intersection of Logan Boulevard and Plank Road in Altoona, Pennsylvania. The facility property is occupied by an approximate 225,000 square foot building and is situated on approximately nine acres of land. The facility manufacturing processes included machining, heat treating, grinding, honing, assembling, and packaging. Wastes generated from these manufacturing processes included waste hydraulic oil, water-soluble synthetic coolant, cutting oil, machining chips, and grinding scrap. Operations at this facility began in 1952 and ended in 2006. The property consists of 2 parcels, Parcel 1 and Parcel 2. Parcel 2 (approximately 4 acres) is currently occupied by the Five Star Suzuki car dealer. Parcel 1 that was used for bearing - manufacturing facility has been sold to a developer and is currently vacant. SKF retains its environmental cleanup responsibility.

## **Site Responsibility**

---

RCRA Corrective Action activities at this facility are being conducted under the One Cleanup Program.

## **Contaminants**

---

The contaminants of concern at the facility are volatile organic compounds including TCE and TCA in the groundwater.

## **Institutional Controls**

---

---

Not yet determined.
