

## Corrective Action Environmental Indicator Goals by Facility Report

### Purpose:

This report lists all facilities included in the selected baseline (2005, 2008, or 2020). This report also indicates each facility's status with regard to two cleanup milestones: the Human Exposures Environmental Indicator (CA725) and the Groundwater Environmental Indicator (CA750). Some of the facilities that have not yet met these milestones have made substantial cleanup progress, often through interim measures.

### Limitations:

The 2020 baseline includes all facilities expected to need cleanup under the RCRA Corrective Action Program, whereas the 2005 and 2008 baselines include higher-priority subsets of that list that the program focused on from 1999-2005 and from 2006-2008, respectively. The company names found on this list are the current facility owners, and the current owners did not cause the contamination in all cases.

### Where Can I Find It:

The report can be found in RCRAInfo under the RCRAInfo National and Implementer Reports link.

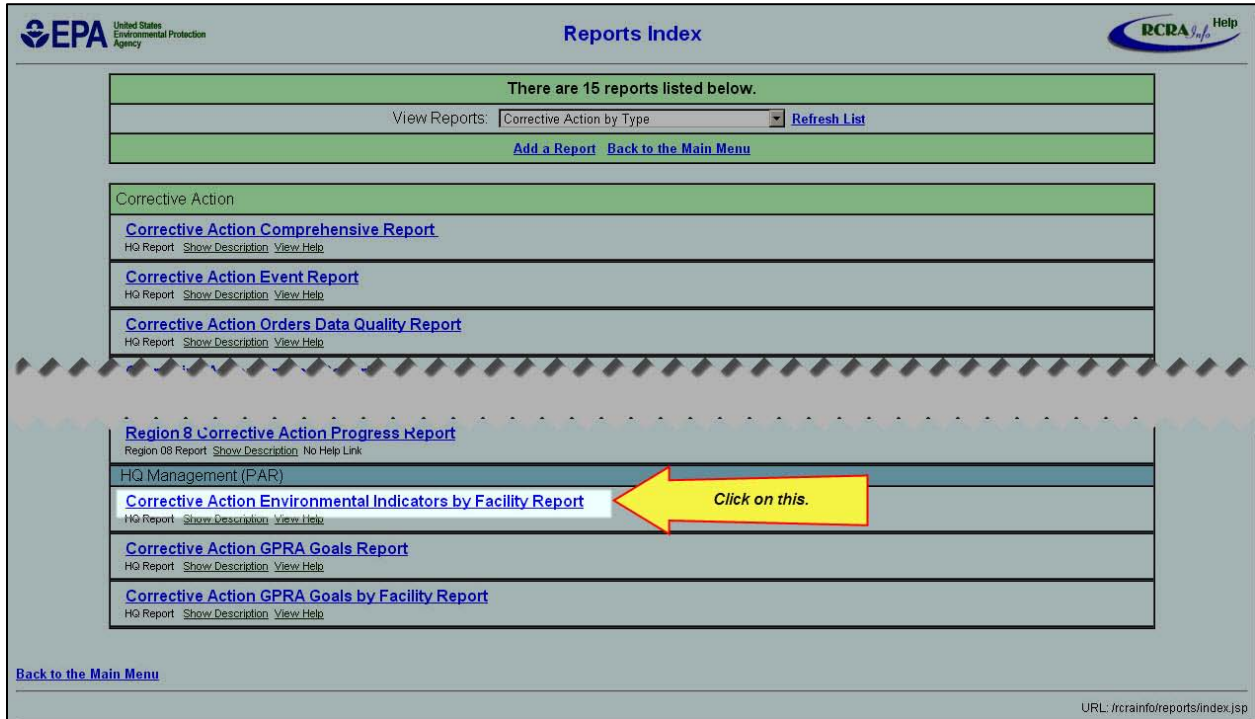

### Running the Report:

1. Log into RCRAInfo. On the Main Menu, select Corrective Action under the National and Implementer Reports link or you can click on the National and Implementer Reports link and then click on the Corrective Action link.

The screenshot shows the RCRAInfo main menu with various navigation links. A yellow arrow with the text "Click on this." points to the "National and Implementer Reports" link. Below this link, the text "g, Corrective Action, CM&E, Financial Assurance, GIS" is visible. Other links include "Select a Handler for Data Maintenance", "My RCRA ID Submissions", "Multi-site Consent Agreement/Final Orders (CAFOs)", "Commitment Maintenance", "News Alerts and General Information", "PCB Data System", "Translate Data", "BARRT", "Utilities", "System Administration", "USITS", "Change Management", and "Logoff".

2. Scroll down until you see HQ Management (PAR) Section. Click on the Corrective Action Environmental Indicators by Facility Report link.

3. You will be taken to GPRA Corrective Action Environmental Indicators by Facility selection criteria screen. Make your selections. Click **Submit**.

**Location:** Choose from any State, U.S. Territory, National, or EPA Region

**Agency Type:** You can choose from various types.

**Date Range:** You indicate the date range of interest.

**Include Sequence Number:** Choose "Yes" or "No" to show sequence numbers.

**Cover Page:** You can choose whether you want a standard EPA cover or a cover for Public Access. The Public Access cover page summarizes the counts per EI.

**Both EIs Yes:** Your choice is to show All Facilities or Facilities with Both EIs.

**Baseline:** You can choose which CA baseline you are interested in. It defaults to GPRA CA 2020.

**Sort Option:** You can choose different Sort Options for how you want your results sorted.

**Output:** You can choose Delimited Text or PDF.

The screenshot shows the EPA website interface for 'Corrective Action Environmental Indicators by Facility'. The page features the EPA logo and title in the top left, and the page title in the top right. Below the title is a green header bar with the text 'User Selection Criteria:'. The main content area contains a form with the following fields:

- Location: A dropdown menu with 'Select' and a small map of the United States.
- Agency Type: A dropdown menu with 'All Facilities'.
- Date Range: Two date input fields. The 'From' field contains '10/01/1980' and the 'To' field contains '05/31/2011'. Each field has a small calendar icon to its right.
- Include Sequence Number: A dropdown menu with 'No'.
- Cover Page: A dropdown menu with 'Public Access Web Report'.
- Both EI's Yes: A dropdown menu with 'All Facilities'.
- Baseline: A dropdown menu with 'GPRA CA 2020'.
- Sort Option: A dropdown menu with 'Facilities'.
- Output: A dropdown menu with 'PDF'.

At the bottom of the form, there are two blue links: 'Submit' and 'Back to Reports'.

4. A report will be generated based on your criteria selection.

## How to Read the Report:

### 1. Public Access Web Report:

- a. Cover page: The cover page summarizes the report description and provides a count for facilities meeting your criteria. It does not show your search criteria.

### Corrective Action Environmental Indicators by Facility for GPRA CA 2020

This report lists all facilities included in the selected baseline (2005, 2008, or 2020). This report also indicates each facility's status with regard to two cleanup milestones: the Human Exposures Environmental Indicator (CA725) and the Groundwater Environmental Indicator (CA750). Some of the facilities that have not yet met these milestones have made substantial cleanup progress, often through interim measures. The 2020 baseline includes all facilities expected to need cleanup under the RCRA Corrective Action Program, whereas the 2005 and 2008 baselines include higher-priority subsets of that list that the program focused on from 1999-2005 and from 2006-2008, respectively. The company names found on this list are the current facility owners, and the current owners did not cause the contamination in all cases. There may be cases where former owners have entered an agreement to be responsible for cleanup. Unfortunately, the database is unable to track and identify these instances.

Human Exposure Environmental Indicator CA725 (Status Code)	Groundwater Environmental Indicator CA750 (Status Code)
<b>YE</b> - "Current Human Exposures Under Control" has been verified. <b>NC</b> - No Human Exposures Control is needed. <b>NO</b> - "Current Human Exposures" are NOT "Under Control." <b>IN</b> - More information is needed to make a determination. <b>No Status</b> - No status has been recorded for this facility.	<b>YE</b> - Yes, "Migration of Contaminated Groundwater Under Control" has been verified. <b>NR</b> - No Release to Groundwater. <b>NO</b> - Unacceptable migration of contaminated groundwater is observed or expected. <b>IN</b> - More Information is needed to make a determination. <b>No Status</b> - No status has been recorded for this facility.

Under Control for Both Eis	Under Control for Only CA725 (Human)	Under Control for Only CA750 (Groundwater)
