

## Permits Due for Renewal Report

### Purpose:

It shows a list of operating and post closure permits due for renewal within a time period.

### Limitations:

This report only shows a list of facilities with renewal due for a specific time period. It does not exclude facilities that already have actions completed. So if you were to pull date for historic reasons, this report would not show how many of the actions were actually renewed. This report is a good way to show what facilities are due in an upcoming FY. However if there is a backlog on renewals, then this report would not be a good way to determine workload.

### Where Can I Find It:

This is a Region 3 report only available on the Region 3 reports web-site.

### Running the Report:

1. Go to Region 3 RCRAInfo Reports web-site at URL:  
<http://www.epa.gov/reg3wcmd/rcrareport.htm>.

## Region 3 RCRAInfo Reports

[Permitting Reports](#) | [CA Reports](#) | [CME Reports](#) | [FA Reports](#) | [GIS Reports](#)

### Permitting Reports

-- [Comprehensive Permitting Report: Permitting Events By Unit](#) - Shows all permitting events for each unit in chronological order by Actual Date

-- [Comprehensive Permitting Report: Permit Unit List](#) - Shows a list of units at a facility.

-- [Comprehensive Permitting Report: Permitting Events](#) - Shows a facility's permitting event history and the unit details linked to each event.

-- [Permits Due Report](#) - Shows list of operating and post closure permits due for renewal within a time period.

### Corrective Action (CA) Reports

-- [CA Environmental Indicator \(HH and GW\) and Remedy Construction Events Count Reports](#) - Shows a list of Corrective Action Events which are (Environmental Indicators: Human Exposure and Ground Water Controlled) and Remedy Construction Complete.

### Compliance, Monitoring and Enforcement Reports

-- [Timely and Appropriate Report](#) - Shows number of days out of compliance for each violation. Violations with an enforcement action of 300 or greater will not appear on the report. These violations have been addressed.

-- [Timely and Appropriate Report with All Violations](#) - Shows number of days out of compliance for each violation. All violations will appear on this report, including those that have a related enforcement action of 300 or greater.

### Financial Assurance Reports

-- [FA Cost Estimate Change Report](#) - Shows financial assurance cost estimates that have changed more than a specified threshold parameter (default value is 10%) for each type of cost estimate. Also included are cost mechanisms for the cost estimates.

### GeoSpatial Information (GIS) Reports

-- [GIS Report for Facilities with Corrective Action IC- EC Controls](#) - Shows GIS Co-ordinate list for facilities with Institutional or Engineering Corrective Action Controls. Output is a co-ordinate list(s), plus handler, facility and area information, and associated corrective action event codes and notes. Report when requested in an optional delimited data file format, can be used to generate kml maps (with software referenced on web input form page).

- Click on the Permits Due Report link.

The screenshot shows the EPA website for the Mid-Atlantic Hazardous Waste Information Management system. The page title is "Region 3 RCRAInfo Reports". Under the "Permitting Reports" section, there are several links: "Comprehensive Permitting Report: Permitting Events By Unit", "Comprehensive Permitting Report: Permit Unit List", "Comprehensive Permitting Report: Permitting Events", and "Permits Due Report". A yellow arrow points to the "Permits Due Report" link. Below this, there is a section for "Corrective Action (CA) Reports" with a link to "CA Environmental Indicator (HH and GW) and Remedial Construction Events Count Reports".

- The criteria selection screen will appear. You must enter in your RCRAInfo production User ID and password. You must also select a single State or can pull for an entire EPA Region. The other fields are optional. You should put in the date range in order to pull for the time period of interest.
