

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION 7  
901 NORTH 5TH STREET  
KANSAS CITY, KANSAS 66101

December 30, 2010

Mr. John Madras  
Director, Water Protection Program  
Water Protection and Soil Conservation Division  
Missouri Department of Natural Resources  
1101 Riverside Drive  
Jefferson City, Missouri 65101

Dear Mr. Madras:

Re: Approval of Lake Taneycomo TMDL

This letter responds to the Missouri Department of Natural Resources (MDNR) submission of a Total Maximum Daily Load (TMDL) document which contains a low dissolved oxygen TMDL for Lake Taneycomo segment 7314. The document was received by the United States Environmental Protection Agency (EPA), Region 7, on November 19, 2010.

Lake Taneycomo was identified on the EPA-approved 2008 Missouri § 303(d) List as impaired for low dissolved oxygen. This submission fulfills the Clean Water Act statutory requirement to develop TMDLs for impairments listed on a state's § 303(d) List. The specific impairment (water body segment and pollutant) are:

<u>Water Body Name</u>	<u>WBID</u>	<u>Pollutant</u>
Lake Taneycomo	MO_7314	low dissolved oxygen

EPA has completed its review of the TMDL document with supporting documentation and information. By this letter, EPA approves the submitted TMDL. Enclosed with this letter is the EPA Region 7 TMDL Decision Document summarizing the rationale for EPA's approval of the TMDL. EPA believes the separate elements of the TMDL document, described in the enclosed form adequately address the pollutant of concern, taking into consideration seasonal variation and a margin of safety. Although EPA does not approve the monitoring plan submitted by the state, EPA acknowledges the state's efforts. EPA understands that the state may use the monitoring plan to gauge the effectiveness of the TMDL document and determine if future revisions are necessary or appropriate to meet applicable water quality standards.

EPA is currently in consultation under Section 7 of the Endangered Species Act with the United States Fish and Wildlife Service regarding the Lake Taneycomo TMDL. While we are approving this TMDL at the present time, we may decide that changes to the TMDL document are warranted based upon the results of the consultation when it is completed.

We appreciate the thoughtful effort that MDNR has put into this TMDL. We will continue to cooperate with and assist, as appropriate, in future efforts by MDNR to develop TMDLs.

Sincerely,

William A. Spratlin  
Director  
Water, Wetlands and Pesticides Division

Enclosure
