Subject: Draft Environmental Impact Statement for Algoma Vegetation Management Project, Shasta-Trinity National Forest, Siskiyou County, CA (CEQ# 20110247)

Dear Ms. Heywood:

The U.S. Environmental Protection Agency (EPA) has reviewed the Draft Environmental Impact Statement (DEIS) for the above-referenced project. Our review and comments are pursuant to the National Environmental Policy Act (NEPA), Council on Environmental Quality (CEQ) regulations (40 CFR Parts 1500-1508), and our NEPA review authority under Section 309 of the Clean Air Act.

We have rated the DEIS as Lack of Objections (LO) (see enclosed "*Summary of Rating Definitions*"). We recognize the long-term benefits of decreasing wildfire risk, and we support the inclusion of the resource protection measures and best management practices described in the DEIS. EPA would also like to commend the Forest Service for providing site-specific information related to climate change trends, including data collected and analyzed from weather stations within the area. We encourage such discussion in NEPA documents because it contributes to improved federal planning and public understanding of the effects of climate change on forest ecosystems and forest management.

We appreciate the opportunity to review this DEIS. When the FEIS is released for public review, please send one hard copy and one CD to the address above (mail code: CED-2). Should you have any questions regarding our comments, please contact me at (415) 972-3521, or contact Stephanie Skophammer, the lead reviewer for the project. Stephanie can be reached at (415) 972-3098 or skophammer.stephanie@epa.gov.

Sincerely,

/s/

Kathleen Martyn Goforth, Manager
Environmental Review Office (CED-2)
