

**UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
INVITES PUBLIC COMMENT ON THE
PROPOSED PLAN FOR THE
WALDICK AEROSPACE DEVICES SUPERFUND SITE
WALL TOWNSHIP, NEW JERSEY**

The U.S. Environmental Protection Agency (EPA) announces the opening of a **30-day comment period** on the Proposed Plan and preferred cleanup alternative to address contamination at the **Waldick Aerospace Devices Superfund Site, in Wall Township, New Jersey**. The comment period **begins on August 14, 2008 and ends on September 13, 2008**. As part of the public comment period, EPA will hold a **Public Meeting on Thursday, August 21, 2008 at 7:00 PM** at the **Wall Township Municipal Building 2700 Allaire Road, Wall Township, New Jersey 07719**. To learn more about the meeting you can contact Ms. Natalie Loney, EPA's Community Involvement Specialist, at 212-637-3639 or 1-800-346-5009 or visit our website at www.epa.gov/region2/superfund/npl/waldick.

The **Waldick Aerospace Devices** site is listed on the Superfund National Priorities List. EPA recently concluded a Long-Term Monitoring Report Groundwater Phase (OU2), dated June 2008. Based upon the results of the Long-Term Monitoring Report and other supporting documentation, EPA has prepared a Proposed Plan which describes the rationale for recommending the preferred cleanup alternative.

The preferred cleanup alternative is:

- Groundwater Contamination – No Action

During the **August 21, 2008 Public Meeting**, EPA representatives will be available to further elaborate on the reasons for recommending the preferred cleanup alternative and public comments will be received.

The Long-Term Monitoring Report, Proposed Plan and other site-related documents are available for public review at the information repositories established for the site at the following locations:

Wall Township Public Library: 2700 Allaire Road, Wall, New Jersey, 07719, (732)449-8877

USEPA Region 2: Superfund Records Center, 290 Broadway, 18th Floor, New York, NY 10007-1866,
(212) 637-4308
Hours: Mon. - Fri., 9 AM - 5 PM

EPA relies on public input to ensure that the selected remedy for each Superfund site meets the needs and concerns of the local community. It is important to note that although EPA has identified a preferred cleanup alternative for the site, no final decision will be made until EPA has considered all public comments received during the public comment period. EPA will summarize these comments along with EPA's responses in a Responsiveness Summary, which will be included in the Administrative Record file as part of the Record of Decision. **Written comments and questions regarding the Waldick Aerospace Devices Superfund site, postmarked no later than September 13, 2008 may be sent to:**
