Region 5, FY 2005 Penalty Report

[Introduction](#)

[Description of 2005 Penalty Report](#)

Penalty Report Ordered Alphabetically by Case or Site Name:

[A-C, D-F, G -K, L-P, Q-S, T-Z](#)

[Region 5 Annual Reports](#)

Introduction:

Penalties for violations of environmental laws play an essential role in EPA's civil enforcement program. EPA assesses penalties for violations of environmental laws mainly to deter future violations and to swiftly resolve environmental problems. Civil penalties not only act as a direct deterrent, but also encourage the regulated community to anticipate, identify and correct violations. In addition, appropriate penalties for violators offer some assurance of equity between those who choose to violate and those who comply with environmental laws.

Nationally, EPA's enforcement program assessed approximately \$154,000,000 in administrative and judicial civil penalties in FY 2005. The enforcement efforts of Region 5 alone secured \$23,617,885 in administrative and judicial penalties. For more information on the breakdown of Region 5's civil judicial and administrative penalties, see our [results summary table](#) below.

What does Region 5's FY 2005 Penalty Report Contain?

This report lists all of Region 5's enforcement cases resolved in FY 2005 that contain a monetary penalty. For each case listed this report indicates: (1) the name and address of the regulated entity and facilities involved; (2) the internal tracking number of the case, known as the action identifier; (3) the date and type of order (i.e. administrative penalty order or consent decree); (4) the statute under which the action was brought; (5) where appropriate, the relevant [National Priority](#); (6) the name of the EPA case contact(s); (7) where applicable, the initial and final penalty assessed in the matter; (8) where applicable, the cost of the injunctive relief; and (9) where applicable, the cost value of the Supplemental Environmental Project the regulated entity agreed to perform.

Report Specific Terminology

First, the term "Respondent" refers to the party to whom an administrative order was issued or an administrative complaint was served. The term "Defendant" refers to the party in a civil judicial lawsuit against whom relief is sought. Second, where the cost of the injunctive relief is indicated, it is usually estimated (unless, of course, the Respondent or Defendant has already complied with the injunctive order). Similarly, where indicated, the cost value of the SEP represents the estimated value of the proposed SEP at the time the enforcement action was resolved. As a final matter, this report names cases by the Respondent or Defendant named in the enforcement action *or* by the common name of the environmental cleanup site.

FY 2005 Region 5 Civil Penalty Summary

Statute	Civil Judicial Penalties	Administrative Penalties	Total (for each statute)
Clean Air Act	\$18,112,300	\$2,425, 670	\$20,537,970
Clean Water Act	\$0	\$246,808	\$246,808
Comprehensive Environmental Response Compensation and Liability Act	\$719,488	\$112,105	\$831,593
Emergency Planning Community Right-to-Know Act	\$0	\$409,782	\$409,782
Federal Insecticide, Fungicide, and Rodenticide Act	\$0	\$350,797	\$350,797
Resource Conservation and Recovery Act	\$0	\$892,555	\$892,555
Safe Drinking Water Act	\$0	\$39,400	\$39,400
Toxic Substance Control Act	\$27,500	\$281,480	\$308,980
Totals (by type of penalty)	\$18,859,288	\$4,758,597	\$23,617,885
