

March 3, 1998

The U. S. EPA and the Air and Waste Management Association (AWMA) are pleased to announce the presentation of a technical workshop on operation of PM_{2,5} equipment and the analysis of data from the Photochemical Assessment Stations (PAMS). This workshop will be presented at the Embassy Suites Conference Center in Cary, North Carolina, May 20-21. You may contact AWMA to register for this workshop. The targeted audience are State and local agency staff responsible for field and laboratory activities associated with PM_{2,5} monitoring and PAMS data analysis.
