Read Me
Quality Assurance Handbook for Air Pollution Measurements

Vol II -- Ambient Air Specific Methods

Volume II Part I of the QA Handbook is completed and replaces draft versions placed on AMTIC. Reading the Redbook.pdf file will require Acrobat reader software which is freeware that is available on many sites including the EPA Homepage, (>www.epa.gov<).

The document is currently being printed and should be available by the end of September 1998; at which time hard copies will be distributed to all EPA Regions and State/local agencies.

Your comments are encouraged and can be either placed in the AMTIC Public Forum, sent to your Regional EPA contact, or sent directly by E-mail to Michael Papp at: (>papp.michael@epamail.epa.gov<).
