### Overview

This data package consisted of twenty (20) soil samples, including two (2) field duplicate samples, analyzed for metals by ICP-AES and ICP-MS and for mercury (Hg) by cold vapor atomic absorption technique.

Analyses were performed by Chemtex (CHX) according to Contract Laboratory Program (CLP) Statement of Work (SOW) ISM02.4. Metals aluminum (Al), calcium (Ca), iron (Fe), magnesium (Mg), potassium (K), and sodium (Na) are analyzed by ICP-AES with the remaining standard target analyte list (TAL) metals analyzed by ICP-MS.

Data were validated according to the National Functional Guidelines for Inorganic Superfund Methods Data Review and applicable USEPA Region 3 modifications. Electronic validation was performed by the Electronic Data eXchange & Evaluation System (EXES). The validation report has been assigned the Superfund Data Validation Level Stage\_4\_Validation\_Electronic\_Manual (S4VEM).

The following validation narrative is an evaluation of laboratory reported data based on the electronic data package available through the EXES Data Manager dated December 22, 2020 and additional data dated December 29, 2020.

Rinsate blanks MCOBG9 and MCOBH0 (from SDG MCOAY8) were associated with samples in this SDG and used in the evaluation of this data.

Field duplicate samples MCOBH3 and MCOBH5 (from SDG MCOAY8) were associated with samples MCOBC4 and MCOBB1, respectively, and were used in evaluation of this data.

### Summary

No significant data quality outliers or technical deficiencies were identified that would require rejection of sample results. Serial dilution and blank contamination issues required estimation of sample data.

**Minor Problems**

Percent differences (%Ds) in the ICP-MS serial dilution analysis were outside the control limit (>10%) for nickel (Ni) and vanadium (V) in sample MCOBC4. Detected concentrations for these analytes are estimated in this sample and have been qualified "J".

Laboratory instrumentation reported a negative value for selenium (Se) greater than the absolute value of the Method Detection Limit (MDL) in a blank analysis. Laboratory instrumentation reported negative values for Hg greater than the absolute value of the MDL in blank analyses. Detected concentrations for these analytes less than Contract Required Quantitation Limits (CRQLs) were reported at the CRQL and qualified "UJ". Quantitation limits for these analytes are estimated and qualified "UJ".

**Notes**

Detected concentrations for target analytes less than the CRQLs are estimated and have been qualified "J".

Antimony (Sb) has been detected in laboratory blanks associated with the samples in this SDG. Detected concentrations for Sb less than the CRQL have been reported at the CRQL and qualified "U".

Rinsate blank MCOBG9 reported concentrations for arsenic (As) and chromium (Cr) less than the CRQLs. Rinsate blank MCOBH0 reported concentrations for Cr and Ni less than the CRQLs and for zinc (Zn) greater than the CRQL. Detected concentrations for Zn were greater than ten times (>10X) the blank concentration and not qualified based on this finding. Detected concentrations for the remaining analytes were greater than the CRQLs and not qualified based on these findings.

Matrix spike, laboratory duplicate, ICP-AES serial dilution, and Laboratory Control Sample analyses were within control limits.

Concentrations for the following target analytes exceeded the calibration range in the initial analysis for the samples listed below. These samples were reanalyzed at dilution in order to quantitate these analytes within the calibration range. Results were reported from the dilutions.

| <b>Sample(s)</b>                       | <b>Analyte(s)</b> | <b>Dilution</b> |
|--|-------------------|-----------------|
| MC0B56, MC0B62, MC0B68, MC0BA4, MC0BB0 | manganese (Mn)    | 2X              |
| MC0BA4                                 | Fe                | 2X              |
| MC0BA1                                 | Mn                | 5X              |
| MC0BB5                                 | lead (Pb), Zn     | 5X              |

Results reported for field duplicate pair MCOBH3/MCOBC4 were comparable (within control limits of 25 Relative Percent Difference (RPD) or  $\pm$  CRQL) for all analytes except As. No data were qualified based on field duplicate precision.

Results reported for field duplicate pair MCOBH5/MCOBB1 were comparable (within control limits of 25 RPD or  $\pm$  CRQL) for all analytes except Al and Pb. No data were qualified based on field duplicate precision.

Sample calculation checks were performed on sample MCOB56. All calculated results had Relative Percent Differences RPDs less than 5% of the reported results. No sample data were qualified.

Validation qualifiers are only applied by the validator to field samples. Qualifiers may be applied by EXES electronic validation in addition to laboratory quality control samples.

### **Glossary of Inorganic Data Qualifier Codes**

---

Validation Qualifiers In order of descending precedence. Only one of these qualifiers may apply to any result.

---

- R The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.
- UJ The analyte was analyzed for, but was not detected. The reported quantitation limit is approximate and may be inaccurate or imprecise.
- U The analyte was analyzed for, but was not detected above the level of the reported sample quantitation limit
- B The result is presumed a blank contaminant. This qualifier is used for drinking water samples only.
- J The result is an estimated quantity. The associated numerical value is the approximate concentration of the analyte in the sample.
- J+ The result is an estimated quantity, but the result may be biased high.
- J- The result is an estimated quantity, but the result may be biased low.

### Overview

This data package consisted of one (1) rinsate blank and twelve (12) soil samples, including five (5) field duplicate samples, analyzed for metals by ICP-AES and ICP-MS and for mercury (Hg) by cold vapor atomic absorption technique.

Analyses were performed by Chemtex (CHX) according to Contract Laboratory Program (CLP) Statement of Work (SOW) ISM02.4. Metals aluminum (Al), calcium (Ca), iron (Fe), magnesium (Mg), potassium (K), and sodium (Na) are analyzed by ICP-AES with the remaining standard target analyte list (TAL) metals analyzed by ICP-MS.

Data were validated according to the National Functional Guidelines for Inorganic Superfund Methods Data Review and applicable USEPA Region 3 modifications. Electronic validation was performed by the Electronic Data eXchange & Evaluation System (EXES). The validation report has been assigned the Superfund Data Validation Level Stage\_4\_Validation\_Electronic\_Manual (S4VEM).

The following validation narrative is an evaluation of laboratory reported data based on the electronic data package available through the EXES Data Manager dated December 9, 2020.

Samples MCOBF9 (from SDG MCOAX9), MCOAY0 and MCOB48 (both from SDG MCOAW3) were associated with field duplicates MCOBG0, MCOBG5 and MCOBG7, respectively, and were used in evaluation of this data.

### Summary

No significant data quality outliers or technical deficiencies were identified that would require rejection of sample results. Blank contamination issues required qualification of sample data.

**Minor Problem**

Laboratory instrumentation reported negative values for arsenic (As) and selenium (Se) greater than the absolute values of the Method Detection Limits (MDLs) in blank analyses. Quantitation limits for Se in associated soil samples and for As in rinsate blank MCOBG3 are estimated and have been qualified "UJ".

**Notes**

Detected concentrations for target analytes less than the Contract Required Quantitation Limits (CRQLs) are estimated and have been qualified "J".

Antimony (Sb) has been detected in laboratory blanks associated with the samples in this SDG. Target analyte Hg has been detected in laboratory blanks associated with the samples in this SDG. Detected concentrations for these analytes less than the CRQL in associated samples have been reported at the CRQL and qualified "U".

Rinsate blank MCOBG3 reported concentrations for manganese (Mn) and zinc (Zn) less than the CRQLs. Detected concentrations for these analytes in associated soil samples were greater than the CRQLs and not qualified based on these findings.

Laboratory duplicate, serial dilution, and Laboratory Control Sample analyses were within control limits.

The matrix spike recovery was low (<75%) for silver (Ag) in soil sample MCOB84. The post-digestion spike recovery was within control limits. The detected concentration for Ag in this sample is less than the CRQL and qualified "J".

Matrix spike recoveries were outside control limits for lead (Pb) and Mn in soil sample MCOB84. The initial concentrations of these analytes were greater than four times (>4X) the amount of the respective spikes added. No data were qualified.

Concentrations for Mn exceeded the calibration range in the initial analysis for soil samples MCOBA9 and MCOBB2. These samples were reanalyzed at two-fold (2X) dilutions in order to quantitate Mn within the calibration range. Results were reported from the dilutions.

Results reported for field duplicate pairs MCOBA8/MCOBG6 and MCOBG1/MCOBG2 were comparable (within control limits of 25 Relative Percent Difference (RPD) or  $\pm$  CRQL) for all analytes. No data were qualified based on field duplicate precision.

Results reported for field duplicate pair MCOBF9/MCOBG0 were comparable (within control limits of RPD or  $\pm$  CRQL) for all analytes except cadmium (Cd). No data were qualified based on field duplicate precision.

Results reported for field duplicate pair MCOAY0/MCOBG5 were comparable (within control limits of RPD or  $\pm$  CRQL) for all analytes except As, barium (Ba), Ca, chromium (Cr), copper (Cu), Pb, Mg, Mn, nickel (Ni), and Zn. No data were qualified based on field duplicate precision.

Results reported for field duplicate pair MCOB48/MCOBG7 were comparable (within control limits of RPD or  $\pm$  CRQL) for all analytes except Cr, cobalt (Co), Pb, Mn, Ni, vanadium (V), and Zn. No data were qualified based on field duplicate precision.

Sample calculation checks were performed for all analyses on soil sample MCOB84, on the ICP-AES and ICP-MS Laboratory Control Sample analyses for the aqueous matrix and on rinsate blank MCOBG3 for Hg analysis. All calculated results had RPDs less than 5% of the reported results. No sample data were qualified.

Validation qualifiers are only applied by the validator to field samples. Qualifiers may be applied by EXES electronic validation in addition to laboratory quality control samples.

### **Glossary of Inorganic Data Qualifier Codes**

---

|            |  |
|------------|--|
| Validation | In order of descending precedence. Only one of these qualifiers may apply to any |
| Qualifiers | result.  |

---

- |    |   |
|----|---|
| R  | The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample. |
| UJ | The analyte was analyzed for, but was not detected. The reported quantitation limit is approximate and may be inaccurate or imprecise.                          |
| U  | The analyte was analyzed for, but was not detected above the level of the reported sample quantitation limit  |
| B  | The result is presumed a blank contaminant. This qualifier is used for drinking water samples only.   |
| J  | The result is an estimated quantity. The associated numerical value is the approximate concentration of the analyte in the sample.                              |
| J+ | The result is an estimated quantity, but the result may be biased high.   |
| J- | The result is an estimated quantity, but the result may be biased low.  |

### **Overview**

This data package consisted of one (1) rinsate blank and five (5) soil samples analyzed for metals by ICP-AES and ICP-MS and for mercury (Hg) by cold vapor atomic absorption technique.

Analyses were performed by Chemtex (CHX) according to Contract Laboratory Program (CLP) Statement of Work (SOW) ISM02.4. Metals aluminum (Al), calcium (Ca), iron (Fe), magnesium (Mg), potassium (K), and sodium (Na) are analyzed by ICP-AES with the remaining standard target analyte list (TAL) metals analyzed by ICP-MS.

Data were validated according to the National Functional Guidelines for Inorganic Superfund Methods Data Review and applicable USEPA Region 3 modifications. Electronic validation was performed by the Electronic Data eXchange & Evaluation System (EXES). The validation report has been assigned the Superfund Data Validation Level Stage\_4\_Validation\_Electronic\_Manual (S4VEM).

The following validation narrative is an evaluation of laboratory reported data based on the electronic data package available through the EXES Data Manager and additional information dated December 29, 2020.

### **Summary**

No significant data quality outliers or technical deficiencies were identified that would require rejection of sample results. Blank contamination issue required qualification of sample data.

### **Minor Problem**

Laboratory instrumentation reported negative values for Hg greater than the absolute value of the Method Detection Limit (MDL) in blank analyses associated with the soil samples. Detected concentrations for Hg in soil samples MCOB89 and MCOBJ0, which were less than the Contract Required Quantitation Limit (CRQL), were reported at the CRQL and qualified "UJ".

**Notes**

Detected concentrations for target analytes less than the CRQLs are estimated and have been qualified "J".

Antimony (Sb), chromium (Cr), selenium (Se) and zinc (Zn) have been detected in laboratory blanks associated with the samples in this SDG. Target analyte Hg has been detected in a laboratory blank associated with rinsate blank MCOBH8. Detected concentration for these analytes in associated samples less than the CRQL have been reported at the CRQL and qualified "U".

Rinsate blank MCOBH8 was free from contamination.

Target analyte Hg matrix spike, laboratory duplicate, ICP-MS serial dilution, and Laboratory Control Sample (LCS) analyses were within control limits.

The matrix spike recovery was outside control limits for lead (Pb) in sample MCOB89. The initial concentration of Pb was greater than four times (>4X) the amount of the spike added. No data were qualified.

Concentrations for manganese (Mn) exceeded the calibration range in the initial analysis for samples MCOB89, MCOB96, MCOB98, MCOBJ0 and MCOBJ1. These samples were reanalyzed at two-fold (2X) dilutions in order to quantitate Mn within the calibration range. Results were reported from the dilutions.

Sample calculation checks were performed on samples MCOB89, MCOBH8 and the ICP-AES LCS. All calculated results had Relative Percent Differences (RPDs) less than 5% of the reported results. No sample data were qualified.

Validation qualifiers are only applied by the validator to field samples. Qualifiers may be applied by EXES electronic validation in addition to laboratory quality control samples.

**Glossary of Inorganic Data Qualifier Codes**

---

Validation    In order of descending precedence. Only one of these qualifiers may apply to any  
Qualifiers    result.

---

- R            The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.
- UJ           The analyte was analyzed for but was not detected. The reported quantitation limit is approximate and may be inaccurate or imprecise.
- U            The analyte was analyzed for, but was not detected above the level of the reported sample quantitation limit
- B            The result is presumed a blank contaminant. This qualifier is used for drinking water samples only.
- J            The result is an estimated quantity. The associated numerical value is the approximate concentration of the analyte in the sample.
- J+           The result is an estimated quantity, but the result may be biased high.
- J-           The result is an estimated quantity, but the result may be biased low.

### Overview

This data package consisted of thirteen (13) soil samples, including a field duplicate sample, analyzed for metals by ICP-AES and ICP-MS and for mercury (Hg) by cold vapor atomic absorption technique.

Analyses were performed by Chemtex (CHX) according to Contract Laboratory Program (CLP) Statement of Work (SOW) ISM02.4. Metals aluminum (Al), calcium (Ca), iron (Fe), magnesium (Mg), potassium (K), and sodium (Na) are analyzed by ICP-AES with the remaining standard target analyte list (TAL) metals analyzed by ICP-MS.

Data were validated according to the National Functional Guidelines for Inorganic Superfund Methods Data Review and applicable USEPA Region 3 modifications. Electronic validation was performed by the Electronic Data eXchange & Evaluation System (EXES). The validation report has been assigned the Superfund Data Validation Level Stage\_4\_Validation\_Electronic\_Manual (S4VEM).

The following validation narrative is an evaluation of laboratory reported data based on the electronic data package available through the EXES Data Manager dated December 23, 2020.

Rinsate blanks MCOBG9 and MCOBH0 (from SDG MCOAY8) were associated with samples in this SDG and used in the evaluation of this data.

### Summary

No significant data quality outliers or technical deficiencies were identified that would require rejection of sample results. Serial dilution and blank contamination issues required estimation of sample data.

### Minor Problems

The percent difference (%D) in the ICP-MS serial dilution analysis was outside the control limit (>10%) for lead (Pb) in sample MCOBE4. The detected concentration for Pb is estimated in this sample and has been qualified "J".

Laboratory instrumentation reported a negative value for selenium (Se) greater than the absolute value of the Method Detection Limit (MDL) in a blank analysis. Quantitation limits for these analytes are estimated and qualified "UJ".

Laboratory instrumentation reported a negative value for Hg greater than the absolute value of the MDL in a blank analysis. Detected concentrations for Hg less than the Contract Required Quantitation Limit (CRQL) were reported at the CRQL and qualified "UJ". Quantitation limits for these analytes are estimated and qualified "UJ".

### **Notes**

Detected concentrations for target analytes less than the CRQLs are estimated and have been qualified "J".

Arsenic (As) has been detected in a laboratory blank associated with the samples in this SDG. The detected concentration for As in associated sample MC0BD6, which was less than the CRQL, has been reported at the CRQL and qualified "U".

Rinsate blank MC0BG9 reported concentrations for arsenic (As) and chromium (Cr) less than the CRQLs. Rinsate blank MC0BH0 reported concentrations for Cr and Ni less than the CRQLs and for zinc (Zn) greater than the CRQL. Detected concentrations for Zn were significantly greater than the blank concentration and not qualified based on this finding. The detected concentration for As in associated sample MC0BD6, which was less than the CRQL, has been reported at the CRQL and qualified "U". Detected concentrations for the remaining analytes were greater than the CRQLs and not qualified based on these findings.

Matrix spike, laboratory duplicate, ICP-AES serial dilution, and Laboratory Control Sample analyses were within control limits.

Concentrations for the following target analytes exceeded the calibration range in the initial analysis for the samples listed below. These samples were reanalyzed at dilution in order to quantitate these analytes within the calibration range. Results were reported from the dilutions.

| <b>Sample(s)</b> | <b>Analyte(s)</b> | <b>Dilution</b> |
|------------------|-------------------|-----------------|
| MC0BD6, MC0BD7   | manganese (Mn)    | 2X              |
| MC0BD6           | Fe                | 2X              |
| MC0BD5           | Mn                | 5X              |

Results reported for field duplicate pair MC0BE2/MC0BH7 were comparable (within control limits of 25 Relative Percent Difference (RPD) or  $\pm$  CRQL) for all analytes except cobalt (Co) and Mn. No data were qualified based on field duplicate precision.

Sample calculation checks were performed on sample MC0BC0 for ICP-AES and ICP-MS and on a continuing calibration standard for Hg. All calculated results had Relative Percent Differences (RPDs) less than 5% of the reported results. No sample data were qualified.

Validation qualifiers are only applied by the validator to field samples. Qualifiers may be applied by EXES electronic validation in addition to laboratory quality control samples.

### **Glossary of Inorganic Data Qualifier Codes**

---

Validation Qualifiers    In order of descending precedence. Only one of these qualifiers may apply to any result.

---

- R        The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.
- UJ        The analyte was analyzed for, but was not detected. The reported quantitation limit is approximate and may be inaccurate or imprecise.
- U        The analyte was analyzed for, but was not detected above the level of the reported sample quantitation limit
- B        The result is presumed a blank contaminant. This qualifier is used for drinking water samples only.
- J        The result is an estimated quantity. The associated numerical value is the approximate concentration of the analyte in the sample.
- J+        The result is an estimated quantity, but the result may be biased high.
- J-        The result is an estimated quantity, but the result may be biased low.

**Subject:** Organic Data Validation (S4VEM)  
Norwood Landfill  
49167 C0B11

### **Overview**

This data package consisted of one (1) trip blank analyzed for volatile analytes, twelve (12) soil samples including one (1) field duplicate sample analyzed for volatile, semivolatile, semivolatile PAH by SIM, pesticide and Aroclor analytes and seven (7) soil samples analyzed for semivolatile, semivolatile PAH by SIM, pesticide and Aroclor analytes.

Analyses were performed by Chemtech Consulting Group (CHM) according to Contract Laboratory Program (CLP) Statement of Work (SOW) SOM02.4.

Data were validated according to the National Functional Guidelines for Organic Superfund Methods Data Review and applicable USEPA Region 3 modifications. Electronic validation was performed by the Electronic Data eXchange & Evaluation System (EXES). The validation report has been assigned the Superfund Data Validation Label S4VEM (Stage\_4\_Validation\_Electronic\_Manual).

The following validation narrative is an evaluation of laboratory reported data based on the electronic data package available through the EXES Data Manager dated December 8, 2020.

### **Summary**

Significant data quality outliers regarding dual column precision in pesticide fraction were identified that resulted in rejection of several analytes in this fraction. Less significant data quality outliers were identified resulting in estimation of sample results, including but not limited to, internal standard in volatile fraction, calibration standards and surrogates in pesticide fraction as detailed below.

**Major Problems**

The following analytes reported percent difference (%D) >200% in pesticide dual column analyses for samples listed. The significant %D between the two results may indicate interferences impacting the analyte. Reported results for these analytes in samples listed have been rejected and qualified "R".

| Fraction  | Affected Sample(s) | Affected Analyte(s)                         |
|-----------|--------------------|---|
| Pesticide | COB12              | Dieldrin, Endrin                            |
|           | COB14              | Endosulfan II                               |
|           | COB16              | trans-Chlordane, Dieldrin, 4,4'-DDT         |
|           | COB17              | Endrin                                      |
|           | COB18              | cis-Chlordane                               |
|           | COB47              | Heptachlor epoxide, Endosulfan II           |
|           | COB69              | Heptachlor epoxide, 4,4'-DDE, Endosulfan II |
|           | COB76              | 4,4'-DDE, 4,4'-DDT                          |

**Minor Problems**

The area counts for internal standard 1,4-Dichlorobenzene-<sub>d4</sub> were outside the lower control limit in volatile samples COB16, COB17 and COB18. These samples were reanalyzed with similar results for samples COB16 and COB18 and area counts for all internal standards outside the control limit in sample COB17. Results from the initial analysis of sample COB17 and reanalysis of samples COB16 and COB18 are reported. No positive results were reported for analytes associated with internal standard 1,4-Dichlorobenzene-<sub>d4</sub> in these samples. Quantitation limits for associated analytes in these samples have been qualified "UJ".

The following analytes failed Percent Difference (%D) criteria on one or both analytical columns in calibration standard listed below. Positive result or quantitation limit for these analytes in the sample associated with this standard is estimated and have been qualified "J" and "UJ", respectively.

| Fraction  | Standard ID | Affected Analytes      | Associated Samples |
|-----------|-------------|------------------------|--------------------|
| Pesticide | INDA327     | Methoxychlor, 4,4'-DDT | COB11              |

The following analytes exceeded the calibration range in the initial or diluted analysis of samples listed. Positive results for these analytes in the affected samples have been qualified "J".

| Fraction | Affected Sample | Affected Analytes  |
|----------|-----------------|--|
| PAH SIM  | COB12           | Phenanthrene, Fluoranthene, Pyrene, Benzo(a)anthracene, Chrysene, Benzo(b)fluoranthene, Benzo(k)fluoranthene, Benzo(a)pyrene, Indeno(1,2,3-cd)pyrene, Benzo(g,h,i)perylene                                     |
|          | COB13           | Phenanthrene, Fluoranthene, Pyrene, Chrysene, Benzo(b)fluoranthene   |
|          | COB17, COB73    | Phenanthrene, Anthracene, Fluoranthene, Pyrene, Benzo(a)anthracene, Chrysene, Benzo(b)fluoranthene, Benzo(k)fluoranthene, Benzo(a)pyrene, Indeno(1,2,3-cd)pyrene, Dibenzo(a,h)anthracene, Benzo(g,h,i)perylene |
|          | COB76           | Fluoranthene, Pyrene   |

Recoveries for surrogate Decachlorobiphenyl (DCB) were outside the lower control limit on one or both analytical columns in samples listed below. Positive results and quantitation limits in these samples have been qualified "J" and "UJ", respectively, unless qualified "R".

| Fraction  | Samples                                  |
|-----------|--|
| Pesticide | COBX9, COB12, COB13, COB71, COB75, COB76 |

#### Notes

Detected concentrations for target analytes less than Contract Required Quantitation Limit (CRQL) are estimated and have been qualified "J".

Pesticide and Aroclor results with %D >25% and 200% between the two analytical columns have been qualified "J".

Laboratory blanks were free of contamination in all fractions with the exception of 4-methyl-2-pentanone <CRQL in VBLK03, carbon disulfide <CRQL in VBLK08 and methylene chloride <CRQL in all volatile blanks except VHBLK02. 4-Methyl-2-pentanone and carbon disulfide were not detected in field samples. Positive results for methylene chloride <CRQL have been raised to the CRQL and qualified "U".

Sample COBF5 collected 11/12/20 is a trip blank associated with samples in this SDG. This trip blank was analyzed in SDG COB36. Trip blanks COBF8 (analyzed in this SDG) and COBF5 were free of contamination. No data were qualified based on trip blanks.

Laboratory Control Samples (LCS) analyzed in pesticide and Aroclor fractions reported acceptable results.

Sample COB71 and COB47 were not analyzed for PAH SIM fraction due the high concentrations of PAH analytes in semivolatile fraction of these samples. No data were qualified based on this finding.

Several analytes exceeded the calibration range in PAH sample COB17. A diluted analysis for this sample was not reported. Data were qualified accordingly as mentioned under "Minor Problems".

The continuing calibration verification (CCV) standard INDA324 associated with pesticide sample COB11 failed precision criteria for 4,4'-DDT. This sample was reanalyzed with a new CCV which again failed the criteria. Results from the reanalysis are reported and qualified accordingly as mentioned above.

Matrix Spike/Matrix Spike Duplicate (MS/MSD) analyses of pesticide and Aroclor samples COB11 reported acceptable results. No data were qualified based on MS/MSD results.

DMCs were diluted out in the diluted analysis of several SIM samples. No data were qualified based on this finding.

The surrogate DCB was diluted out in pesticide sample COB69DL on one analytical column. No data were qualified based on this finding.

Several non-spiked analytes were detected in pesticide sample COB11 and the MS/MSD analyses of this sample. The results for these analytes were <CRQL and no comparison of these results was made.

Concentrations for the following target analytes exceeded the calibration range in the initial analysis for samples listed below. The samples were reanalyzed at dilution listed in order to quantitate these analytes within the calibration range and the analytes were reported from the dilutions. There is no indication that these exceedance issues impacted subsequent sample analyses.

| Fraction     | Sample              | DF  | Affected Analytes  |
|--------------|---------------------|-----|--|
| Semivolatile | COB47, COB71        | 2X  | Pyrene, Benzo(b)fluoranthene   |
| PAH          | COB12               | 5X  | Phenanthrene, Fluoranthene, Pyrene, Benzo(a)anthracene, Chrysene, Benzo(b)fluoranthene, Benzo(k)fluoranthene, Benzo(a)pyrene, Indeno(1,2,3-cd)pyrene, Dibenzo(a,h)anthracene, Benzo(g,h,i)perylene                                     |
|              | COB13               | 5X  | Acenaphthene, Phenanthrene, Anthracene, Fluoranthene, Pyrene, Benzo(a)anthracene, Chrysene, Benzo(b)fluoranthene, Benzo(k)fluoranthene, Benzo(a)pyrene, Indeno(1,2,3-cd)pyrene, Dibenzo(a,h)anthracene, Benzo(g,h,i)perylene           |
|              | COB14               | 2X  | Fluoranthene, Pyrene   |
|              | COB16, COB37, COB76 | 5X  | Phenanthrene, Fluoranthene, Pyrene, Benzo(a)anthracene, Chrysene, Benzo(b)fluoranthene, Benzo(k)fluoranthene, Benzo(a)pyrene, Indeno(1,2,3-cd)pyrene, Benzo(g,h,i)perylene   |
|              | COB18               | 5X  | Phenanthrene, Fluoranthene, Pyrene, Benzo(a)anthracene, Chrysene, Benzo(b)fluoranthene, Benzo(a)pyrene, Indeno(1,2,3-cd)pyrene, Benzo(g,h,i)perylene   |
|              | COB22               | 10X | Phenanthrene, Anthracene, Fluoranthene, Pyrene, Benzo(a)anthracene, Chrysene, Benzo(b)fluoranthene, Benzo(k)fluoranthene, Benzo(a)pyrene, Indeno(1,2,3-cd)pyrene, Benzo(g,h,i)perylene   |
|              | COB69               | 10X | Phenanthrene, Fluoranthene, Pyrene, Benzo(a)anthracene, Chrysene, Benzo(b)fluoranthene, Benzo(k)fluoranthene, Benzo(a)pyrene, Indeno(1,2,3-cd)pyrene, Benzo(g,h,i)perylene   |
|              | COB73               | 2X  | Acenaphthene, Fluorene, Phenanthrene, Anthracene, Fluoranthene, Pyrene, Benzo(a)anthracene, Chrysene, Benzo(b)fluoranthene, Benzo(k)fluoranthene, Benzo(a)pyrene, Indeno(1,2,3-cd)pyrene, Dibenzo(a,h)anthracene, Benzo(g,h,i)perylene |
|              | COB75               | 5X  | Fluoranthene, Pyrene, Chrysene, Benzo(b)fluoranthene, Benzo(a)pyrene   |
| Pesticide    | COB14               | 10X | Heptachlor, Heptachlor epoxide, cis-Chlordane, trans-Chlordane   |
|              | COB47, COB69        | 10X | cis-Chlordane, trans-Chlordane   |

Sample COBF7 is listed as a field duplicate sample on the chain of custody. The field duplicate pair to this sample was not identified. Comparison of results could not be made.

Tentatively Identified Compounds (TICs) are not reviewed by the data validators. The validation qualifiers are applied by EXES electronic validation based on laboratory qualifiers. By definition, all compounds identified as TICs should be treated as tentative identifications and all reported results should be considered estimated.

Sample calculation checks were performed. All calculated results had RPDs less than 5% of the reported results. No sample data were qualified.

Manual integrations were performed and identified by the laboratory. A subset of these was evaluated and were found to be accurate and consistent. No action was taken based on manual integrations. Validation qualifiers are only applied by the validator to field samples. Qualifiers may be applied by EXES electronic validation to laboratory quality control sample.

### **Glossary of Organic Data Qualifier Codes**

|                       |   |
|-----------------------|---|
| Validation Qualifiers | In order of descending precedence. Only one of these qualifiers may apply to any result.  |
| R                     | The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.             |
| UJ                    | The analyte was analyzed for, but was not detected. The reported quantitation limit is approximate and may be inaccurate or imprecise.                                      |
| U                     | The analyte was analyzed for, but was not detected above the level of the reported sample quantitation limit  |
| J                     | The result is an estimated quantity. The associated numerical value is the approximate concentration of the analyte in the sample.  |
| J+                    | The result is an estimated quantity, but the result may be biased high.   |
| J-                    | The result is an estimated quantity, but the result may be biased low.  |
| Additional Qualifiers | Additional qualifiers may be combined with other qualifiers.  |
| N                     | The analyte has been "tentatively identified" or "presumptively" as present.  |
| B                     | The result is presumed a blank contaminant. This qualifier is used for drinking water samples only.   |
| C                     | The target Pesticide or Aroclor analyte identification has been confirmed by Gas Chromatography/Mass Spectrometry (GC/MS). This qualifier may be added to other qualifiers. |
| X                     | The target Pesticide or Aroclor analyte identification was not confirmed when GC/MS analysis was performed. This qualifier may be added to other qualifiers.                |

| 4,4-DDD             | Target       | 4.4               | UJ              | ug/kg | 4.4        | U        | 1.0             | YES        | S4VEM            |
| Endosulfan Sulfate  | Target       | 4.4               | UJ              | ug/kg | 4.4        | U        | 1.0             | YES        | S4VEM            |
| 4,4-DDT             | Target       | 4.4               | UJ              | ug/kg | 4.4        | U        | 1.0             | YES        | S4VEM            |
| Methoxychlor        | Target       | 23                | UJ              | ug/kg | 23         | U        | 1.0             | YES        | S4VEM            |
| Endrin ketone       | Target       | 4.4               | UJ              | ug/kg | 4.4        | U        | 1.0             | YES        | S4VEM            |
| Endrin Aldehyde     | Target       | 4.4               | UJ              | ug/kg | 4.4        | U        | 1.0             | YES        | S4VEM            |
| cis-Chlordane       | Target       | 1.0               | J               | ug/kg | 1.0        | JP       | 1.0             | YES        | S4VEM            |
| trans-Chlordane     | Target       | 0.44              | J               | ug/kg | 0.44       | J        | 1.0             | YES        | S4VEM            |
| Toxaphene           | Target       | 230               | UJ              | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |

# Sample Summary Report

Project Name: NORWOOD LANDFILL Project

GroupID: 49167/EPW14030/C0B11

Lab Name: Chemtech Consulting Group

|                             |                       |                         |                       |
|-----------------------------|-----------------------|-------------------------|-----------------------|
| Sample Number: C0AX9        | Method: Semivolatiles | Matrix: Soil            | MA Number:            |
| Sample Location: NLR-SS-116 | pH:                   | Sample Date: 11/16/2020 | Sample Time: 11:15:00 |
| % Moisture:                 |                       | % Solids: 74.4          |                       |

| Analyte Name                | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |
|-----------------------------|--------------|-------------------|-----------------|-------|------------|----------|-----------------|------------|------------------|
| 1,4-Dioxane                 | Target       | 90                | U               | ug/kg | 90         | U        | 1.0             | YES        | S4VEM            |
| Benzaldehyde                | Target       | 440               | U               | ug/kg | 440        | U        | 1.0             | YES        | S4VEM            |
| Phenol                      | Target       | 130               | J               | ug/kg | 130        | J        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethyl)ether     | Target       | 440               | U               | ug/kg | 440        | U        | 1.0             | YES        | S4VEM            |
| 2-Chlorophenol              | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylphenol              | Target       | 440               | U               | ug/kg | 440        | U        | 1.0             | YES        | S4VEM            |
| 2,2-oxybis(1-Chloropropane) | Target       | 440               | U               | ug/kg | 440        | U        | 1.0             | YES        | S4VEM            |
| Acetophenone                | Target       | 440               | U               | ug/kg | 440        | U        | 1.0             | YES        | S4VEM            |
| 4-Methylphenol              | Target       | 440               | U               | ug/kg | 440        | U        | 1.0             | YES        | S4VEM            |
| N-Nitroso-di-n-propylamine  | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| Hexachloroethane            | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| Nitrobenzene                | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| Isophorone                  | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitrophenol               | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dimethylphenol          | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethoxy)methane  | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dichlorophenol          | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| Naphthalene                 | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloroaniline             | Target       | 440               | U               | ug/kg | 440        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobutadiene         | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| Caprolactam                 | Target       | 440               | U               | ug/kg | 440        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloro-3-methylphenol     | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylnaphthalene         | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorocyclopentadiene   | Target       | 440               | U               | ug/kg | 440        | U        | 1.0             | YES        | S4VEM            |
| 2,4,6-Trichlorophenol       | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 2,4,5-Trichlorophenol       | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 1,1-Biphenyl                | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 2-Chloronaphthalene         | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitroaniline              | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| Dimethylphthalate           | Target       | 250               |                 | ug/kg | 250        |          | 1.0             | YES        | S4VEM            |
| 2,6-Dinitrotoluene          | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthylene              | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 3-Nitroaniline              | Target       | 440               | U               | ug/kg | 440        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthene                | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrophenol           | Target       | 440               | U               | ug/kg | 440        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitrophenol               | Target       | 440               | U               | ug/kg | 440        | U        | 1.0             | YES        | S4VEM            |
| Dibenzofuran                | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrotoluene          | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| Diethylphthalate            | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| Fluorene                    | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 4-Chlorophenyl-phenylether  | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitroaniline              | Target       | 440               | U               | ug/kg | 440        | U        | 1.0             | YES        | S4VEM            |
| 4,6-Dinitro-2-methylphenol  | Target       | 440               | U               | ug/kg | 440        | U        | 1.0             | YES        | S4VEM            |
| N-Nitrosodiphenylamine      | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 1,2,4,5-Tetrachlorobenzene  | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |
| 4-Bromophenyl-phenylether   | Target       | 230               | U               | ug/kg | 230        | U        | 1.0             | YES        | S4VEM            |

# Sample Summary Report

Project Name: NORWOOD LANDFILL Project

GroupID: 49167/EPW14030/C0B11

Lab Name: Chemtech Consulting Group

|                             |                       |                         |                       |
|-----------------------------|-----------------------|-------------------------|-----------------------|
| Sample Number: C0B11        | Method: Semivolatiles | Matrix: Soil            | MA Number:            |
| Sample Location: NLR-SS-148 | pH:                   | Sample Date: 11/12/2020 | Sample Time: 13:10:00 |
| % Moisture:                 |                       | % Solids: 78.9          |                       |

| Analyte Name                | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |
|-----------------------------|--------------|-------------------|-----------------|-------|------------|----------|-----------------|------------|------------------|
| 1,4-Dioxane                 | Target       | 85                | U               | ug/kg | 85         | U        | 1.0             | YES        | S4VEM            |
| Benzaldehyde                | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| Phenol                      | Target       | 160               | J               | ug/kg | 160        | J        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethyl)ether     | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| 2-Chlorophenol              | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylphenol              | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| 2,2-oxybis(1-Chloropropane) | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| Acetophenone                | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| 4-Methylphenol              | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| N-Nitroso-di-n-propylamine  | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| Hexachloroethane            | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| Nitrobenzene                | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| Isophorone                  | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitrophenol               | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dimethylphenol          | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethoxy)methane  | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dichlorophenol          | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| Naphthalene                 | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloroaniline             | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobutadiene         | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| Caprolactam                 | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloro-3-methylphenol     | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylnaphthalene         | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorocyclopentadiene   | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| 2,4,6-Trichlorophenol       | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| 2,4,5-Trichlorophenol       | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| 1,1-Biphenyl                | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| 2-Chloronaphthalene         | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitroaniline              | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| Dimethylphthalate           | Target       | 86                | J               | ug/kg | 86         | J        | 1.0             | YES        | S4VEM            |
| 2,6-Dinitrotoluene          | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthylene              | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| 3-Nitroaniline              | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthene                | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrophenol           | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitrophenol               | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| Dibenzofuran                | Target       | 210               | U               | ug/kg | 210        | U        | 1.0             | YES        | S4VEM            |

# Sample Summary Report

Project Name: NORWOOD LANDFILL Project

GroupID: 49167/EPW14030/C0B11

Lab Name: Chemtech Consulting Group

Sample Number: C0B11MS

Method: Aroclors

Matrix: Soil

MA Number:

Sample Location:

pH:

Sample Date: 11/12/2020

Sample Time: 13:10:00

% Moisture:

% Solids: 78.9

| Analyte Name | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |

|                             |                       |                         |                       |
|-----------------------------|-----------------------|-------------------------|-----------------------|
| Sample Number: C0B13        | Method: Semivolatiles | Matrix: Soil            | MA Number:            |
| Sample Location: NLR-SS-150 | pH:                   | Sample Date: 11/16/2020 | Sample Time: 08:50:00 |
| % Moisture:                 |                       | % Solids: 69.1          |                       |

| Analyte Name                | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |
|-----------------------------|--------------|-------------------|-----------------|-------|------------|----------|-----------------|------------|------------------|
| 1,4-Dioxane                 | Target       | 97                | U               | ug/kg | 97         | U        | 1.0             | YES        | S4VEM            |
| Benzaldehyde                | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| Phenol                      | Target       | 84                | J               | ug/kg | 84         | J        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethyl)ether     | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| 2-Chlorophenol              | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylphenol              | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| 2,2-oxybis(1-Chloropropane) | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| Acetophenone                | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| 4-Methylphenol              | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| N-Nitroso-di-n-propylamine  | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Hexachloroethane            | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Nitrobenzene                | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Isophorone                  | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitrophenol               | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dimethylphenol          | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethoxy)methane  | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dichlorophenol          | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Naphthalene                 | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloroaniline             | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobutadiene         | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Caprolactam                 | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloro-3-methylphenol     | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylnaphthalene         | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorocyclopentadiene   | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| 2,4,6-Trichlorophenol       | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2,4,5-Trichlorophenol       | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 1,1-Biphenyl                | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2-Chloronaphthalene         | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitroaniline              | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Dimethylphthalate           | Target       | 150               | J               | ug/kg | 150        | J        | 1.0             | YES        | S4VEM            |
| 2,6-Dinitrotoluene          | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthylene              | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 3-Nitroaniline              | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthene                | Target       | 97                | J               | ug/kg | 97         | J        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrophenol           | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitrophenol               | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| Dibenzofuran                | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrotoluene          | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Diethylphthalate            | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Fluorene                    | Target       | 62                | J               | ug/kg | 62         | J        | 1.0             | YES        | S4VEM            |
| 4-Chlorophenyl-phenylether  | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitroaniline              | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| 4,6-Dinitro-2-methylphenol  | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| N-Nitrosodiphenylamine      | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 1,2,4,5-Tetrachlorobenzene  | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 4-Bromophenyl-phenylether   | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobenzene           | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Atrazine                    | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| Pentachlorophenol           | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| Phenanthrene                | Target       | 680               |                 | ug/kg | 680        |          | 1.0             | YES        | S4VEM            |
| Anthracene                  | Target       | 140               | J               | ug/kg | 140        | J        | 1.0             | YES        | S4VEM            |
| Carbazole                   | Target       | 110               | J               | ug/kg | 110        | J        | 1.0             | YES        | S4VEM            |
| Di-n-butylphthalate         | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |

# Sample Summary Report

Project Name: NORWOOD LANDFILL Project

GroupID: 49167/EPW14030/C0B11

Lab Name: Chemtech Consulting Group

| Analyte Name                        | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |
|-------------------------------------|--------------|-------------------|-----------------|-------|------------|----------|-----------------|------------|------------------|
| Fluoranthene                        | Target       | 1000              |                 | ug/kg | 1000       |          | 1.0             | YES        | S4VEM            |
| Pyrene                              | Target       | 920               |                 | ug/kg | 920        |          | 1.0             | YES        | S4VEM            |
| Butylbenzylphthalate                | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 3,3-Dichlorobenzidine               | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |

# Sample Summary Report

Project Name: NORWOOD LANDFILL Project

GroupID: 49167/EPW14030/C0B11

Lab Name: Chemtech Consulting Group

Sample Number: C0B14

Method: Aroclors

Matrix: Soil

MA Number:

Sample Location: NLR-SS-151

pH:

Sample Date: 11/16/2020

Sample Time: 10:25:00

% Moisture:

% Solids: 76.4

| Endosulfan Sulfate  | Target       | 0.87              | J               | ug/kg | 0.87       | JP       | 1.0             | YES        | S4VEM            |
| 4,4-DDT             | Target       | 2.1               | J               | ug/kg | 2.1        | JP       | 1.0             | YES        | S4VEM            |
| Methoxychlor        | Target       | 22                | U               | ug/kg | 22         | U        | 1.0             | YES        | S4VEM            |
| Endrin ketone       | Target       | 4.3               | U               | ug/kg | 4.3        | U        | 1.0             | YES        | S4VEM            |
| Endrin Aldehyde     | Target       | 4.3               | U               | ug/kg | 4.3        | U        | 1.0             | YES        | S4VEM            |
| cis-Chlordane       | Target       | 170               | J               | ug/kg | 170        | DP       | 10.0            | YES        | S4VEM            |
| trans-Chlordane     | Target       | 330               |                 | ug/kg | 330        | D        | 10.0            | YES        | S4VEM            |
| Toxaphene           | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |

# Sample Summary Report

Project Name: NORWOOD LANDFILL Project

GroupID: 49167/EPW14030/C0B11

Lab Name: Chemtech Consulting Group

|                             |                       |                         |                       |
|-----------------------------|-----------------------|-------------------------|-----------------------|
| Sample Number: C0B14        | Method: Semivolatiles | Matrix: Soil            | MA Number:            |
| Sample Location: NLR-SS-151 | pH:                   | Sample Date: 11/16/2020 | Sample Time: 10:25:00 |
| % Moisture:                 |                       | % Solids: 76.4          |                       |

| Analyte Name                | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |
|-----------------------------|--------------|-------------------|-----------------|-------|------------|----------|-----------------|------------|------------------|
| 1,4-Dioxane                 | Target       | 88                | U               | ug/kg | 88         | U        | 1.0             | YES        | S4VEM            |
| Benzaldehyde                | Target       | 430               | U               | ug/kg | 430        | U        | 1.0             | YES        | S4VEM            |
| Phenol                      | Target       | 83                | J               | ug/kg | 83         | J        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethyl)ether     | Target       | 430               | U               | ug/kg | 430        | U        | 1.0             | YES        | S4VEM            |
| 2-Chlorophenol              | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylphenol              | Target       | 430               | U               | ug/kg | 430        | U        | 1.0             | YES        | S4VEM            |
| 2,2-oxybis(1-Chloropropane) | Target       | 430               | U               | ug/kg | 430        | U        | 1.0             | YES        | S4VEM            |
| Acetophenone                | Target       | 430               | U               | ug/kg | 430        | U        | 1.0             | YES        | S4VEM            |
| 4-Methylphenol              | Target       | 430               | U               | ug/kg | 430        | U        | 1.0             | YES        | S4VEM            |
| N-Nitroso-di-n-propylamine  | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Hexachloroethane            | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Nitrobenzene                | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Isophorone                  | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitrophenol               | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dimethylphenol          | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethoxy)methane  | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dichlorophenol          | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Naphthalene                 | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloroaniline             | Target       | 430               | U               | ug/kg | 430        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobutadiene         | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Caprolactam                 | Target       | 430               | U               | ug/kg | 430        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloro-3-methylphenol     | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylnaphthalene         | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorocyclopentadiene   | Target       | 430               | U               | ug/kg | 430        | U        | 1.0             | YES        | S4VEM            |
| 2,4,6-Trichlorophenol       | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2,4,5-Trichlorophenol       | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 1,1-Biphenyl                | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2-Chloronaphthalene         | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitroaniline              | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Dimethylphthalate           | Target       | 96                | J               | ug/kg | 96         | J        | 1.0             | YES        | S4VEM            |
| 2,6-Dinitrotoluene          | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthylene              | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 3-Nitroaniline              | Target       | 430               | U               | ug/kg | 430        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthene                | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrophenol           | Target       | 430               | U               | ug/kg | 430        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitrophenol               | Target       | 430               | U               | ug/kg | 430        | U        | 1.0             | YES        | S4VEM            |
| Dibenzofuran                | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrotoluene          | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Diethylphthalate            | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Fluorene                    | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 4-Chlorophenyl-phenylether  | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitroaniline              | Target       | 430               | U               | ug/kg | 430        | U        | 1.0             | YES        | S4VEM            |
| 4,6-Dinitro-2-methylphenol  | Target       | 430               | U               | ug/kg | 430        | U        | 1.0             | YES        | S4VEM            |
| N-Nitrosodiphenylamine      | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 1,2,4,5-Tetrachlorobenzene  | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 4-Bromophenyl-phenylether   | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobenzene           | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |

| Heptachlor epoxide  | Target       | 2.8               | U               | ug/kg | 2.8        | U        | 1.0             | YES        | S4VEM            |
| Endosulfan I        | Target       | 2.8               | U               | ug/kg | 2.8        | U        | 1.0             | YES        | S4VEM            |
| Dieldrin            | Target       | 5.5               | U               | ug/kg | 5.5        | U        | 1.0             | YES        | S4VEM            |
| 4,4-DDE             | Target       | 5.5               | U               | ug/kg | 5.5        | U        | 1.0             | YES        | S4VEM            |
| Endrin              | Target       | 5.5               | U               | ug/kg | 5.5        | U        | 1.0             | YES        | S4VEM            |
| Endosulfan II       | Target       | 5.5               | U               | ug/kg | 5.5        | U        | 1.0             | YES        | S4VEM            |
| 4,4-DDD             | Target       | 5.5               | U               | ug/kg | 5.5        | U        | 1.0             | YES        | S4VEM            |
| Endosulfan Sulfate  | Target       | 5.5               | U               | ug/kg | 5.5        | U        | 1.0             | YES        | S4VEM            |
| 4,4-DDT             | Target       | 5.5               | U               | ug/kg | 5.5        | U        | 1.0             | YES        | S4VEM            |
| Methoxychlor        | Target       | 28                | U               | ug/kg | 28         | U        | 1.0             | YES        | S4VEM            |
| Endrin ketone       | Target       | 5.5               | U               | ug/kg | 5.5        | U        | 1.0             | YES        | S4VEM            |
| Endrin Aldehyde     | Target       | 5.5               | U               | ug/kg | 5.5        | U        | 1.0             | YES        | S4VEM            |
| cis-Chlordane       | Target       | 2.8               | U               | ug/kg | 2.8        | U        | 1.0             | YES        | S4VEM            |
| trans-Chlordane     | Target       | 2.8               | U               | ug/kg | 2.8        | U        | 1.0             | YES        | S4VEM            |
| Toxaphene           | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |

# Sample Summary Report

Project Name: NORWOOD LANDFILL Project

GroupID: 49167/EPW14030/C0B11

Lab Name: Chemtech Consulting Group

|                             |                       |                         |                       |
|-----------------------------|-----------------------|-------------------------|-----------------------|
| Sample Number: C0B15        | Method: Semivolatiles | Matrix: Soil            | MA Number:            |
| Sample Location: NLR-SS-152 | pH:                   | Sample Date: 11/16/2020 | Sample Time: 11:55:00 |
| % Moisture:                 |                       | % Solids: 59.6          |                       |

| Analyte Name                | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |
|-----------------------------|--------------|-------------------|-----------------|-------|------------|----------|-----------------|------------|------------------|
| 1,4-Dioxane                 | Target       | 110               | U               | ug/kg | 110        | U        | 1.0             | YES        | S4VEM            |
| Benzaldehyde                | Target       | 550               | U               | ug/kg | 550        | U        | 1.0             | YES        | S4VEM            |
| Phenol                      | Target       | 220               | J               | ug/kg | 220        | J        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethyl)ether     | Target       | 550               | U               | ug/kg | 550        | U        | 1.0             | YES        | S4VEM            |
| 2-Chlorophenol              | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylphenol              | Target       | 550               | U               | ug/kg | 550        | U        | 1.0             | YES        | S4VEM            |
| 2,2-oxybis(1-Chloropropane) | Target       | 550               | U               | ug/kg | 550        | U        | 1.0             | YES        | S4VEM            |
| Acetophenone                | Target       | 550               | U               | ug/kg | 550        | U        | 1.0             | YES        | S4VEM            |
| 4-Methylphenol              | Target       | 130               | J               | ug/kg | 130        | J        | 1.0             | YES        | S4VEM            |
| N-Nitroso-di-n-propylamine  | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| Hexachloroethane            | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| Nitrobenzene                | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| Isophorone                  | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitrophenol               | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dimethylphenol          | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethoxy)methane  | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dichlorophenol          | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| Naphthalene                 | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloroaniline             | Target       | 550               | U               | ug/kg | 550        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobutadiene         | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| Caprolactam                 | Target       | 550               | U               | ug/kg | 550        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloro-3-methylphenol     | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylnaphthalene         | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorocyclopentadiene   | Target       | 550               | U               | ug/kg | 550        | U        | 1.0             | YES        | S4VEM            |
| 2,4,6-Trichlorophenol       | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 2,4,5-Trichlorophenol       | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 1,1-Biphenyl                | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 2-Chloronaphthalene         | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitroaniline              | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| Dimethylphthalate           | Target       | 220               | J               | ug/kg | 220        | J        | 1.0             | YES        | S4VEM            |
| 2,6-Dinitrotoluene          | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthylene              | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 3-Nitroaniline              | Target       | 550               | U               | ug/kg | 550        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthene                | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrophenol           | Target       | 550               | U               | ug/kg | 550        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitrophenol               | Target       | 550               | U               | ug/kg | 550        | U        | 1.0             | YES        | S4VEM            |
| Dibenzofuran                | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrotoluene          | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| Diethylphthalate            | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| Fluorene                    | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 4-Chlorophenyl-phenylether  | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitroaniline              | Target       | 550               | U               | ug/kg | 550        | U        | 1.0             | YES        | S4VEM            |
| 4,6-Dinitro-2-methylphenol  | Target       | 550               | U               | ug/kg | 550        | U        | 1.0             | YES        | S4VEM            |
| N-Nitrosodiphenylamine      | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 1,2,4,5-Tetrachlorobenzene  | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| 4-Bromophenyl-phenylether   | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobenzene           | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |
| Atrazine                    | Target       | 550               | U               | ug/kg | 550        | U        | 1.0             | YES        | S4VEM            |
| Pentachlorophenol           | Target       | 550               | U               | ug/kg | 550        | U        | 1.0             | YES        | S4VEM            |
| Phenanthrene                | Target       | 280               | U               | ug/kg | 280        | U        | 1.0             | YES        | S4VEM            |

# Sample Summary Report

Project Name: NORWOOD LANDFILL Project

GroupID: 49167/EPW14030/C0B11

Lab Name: Chemtech Consulting Group

Sample Number: C0B17

Method: Aroclors

Matrix: Soil

MA Number:

Sample Location: NLR-SS-154

pH:

Sample Date: 11/16/2020

Sample Time: 09:50:00

% Moisture:

% Solids: 66.3

| Analyte Name | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |

| Acenaphthylene              | Target       | 260               | U               | ug/kg | 260        | U        | 1.0             | YES        | S4VEM            |
| 3-Nitroaniline              | Target       | 500               | U               | ug/kg | 500        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthene                | Target       | 71                | J               | ug/kg | 71         | J        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrophenol           | Target       | 500               | U               | ug/kg | 500        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitrophenol               | Target       | 500               | U               | ug/kg | 500        | U        | 1.0             | YES        | S4VEM            |
| Dibenzofuran                | Target       | 260               | U               | ug/kg | 260        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrotoluene          | Target       | 260               | U               | ug/kg | 260        | U        | 1.0             | YES        | S4VEM            |
| Diethylphthalate            | Target       | 260               | U               | ug/kg | 260        | U        | 1.0             | YES        | S4VEM            |
| Fluorene                    | Target       | 71                | J               | ug/kg | 71         | J        | 1.0             | YES        | S4VEM            |
| 4-Chlorophenyl-phenylether  | Target       | 260               | U               | ug/kg | 260        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitroaniline              | Target       | 500               | U               | ug/kg | 500        | U        | 1.0             | YES        | S4VEM            |
| 4,6-Dinitro-2-methylphenol  | Target       | 500               | U               | ug/kg | 500        | U        | 1.0             | YES        | S4VEM            |
| N-Nitrosodiphenylamine      | Target       | 260               | U               | ug/kg | 260        | U        | 1.0             | YES        | S4VEM            |
| 1,2,4,5-Tetrachlorobenzene  | Target       | 260               | U               | ug/kg | 260        | U        | 1.0             | YES        | S4VEM            |
| 4-Bromophenyl-phenylether   | Target       | 260               | U               | ug/kg | 260        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobenzene           | Target       | 260               | U               | ug/kg | 260        | U        | 1.0             | YES        | S4VEM            |
| Atrazine                    | Target       | 500               | U               | ug/kg | 500        | U        | 1.0             | YES        | S4VEM            |
| Pentachlorophenol           | Target       | 500               | U               | ug/kg | 500        | U        | 1.0             | YES        | S4VEM            |
| Phenanthrene                | Target       | 1600              |                 | ug/kg | 1600       |          | 1.0             | YES        | S4VEM            |
| Anthracene                  | Target       | 260               |                 | ug/kg | 260        |          | 1.0             | YES        | S4VEM            |
| Carbazole                   | Target       | 240               | J               | ug/kg | 240        | J        | 1.0             | YES        | S4VEM            |
| Di-n-butylphthalate         | Target       | 260               | U               | ug/kg | 260        | U        | 1.0             | YES        | S4VEM            |

# Sample Summary Report

Project Name: NORWOOD LANDFILL Project

GroupID: 49167/EPW14030/C0B11

Lab Name: Chemtech Consulting Group

| Analyte Name                       | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |
|------------------------------------|--------------|-------------------|-----------------|-------|------------|----------|-----------------|------------|------------------|
| Fluoranthene                       | Target       | 3900              |                 | ug/kg | 3900       |          | 1.0             | YES        | S4VEM            |
| Pyrene                             | Target       | 3700              |                 | ug/kg | 3700       |          | 1.0             | YES        | S4VEM            |
| Butylbenzylphthalate               | Target       | 260               | U               | ug/kg | 260        | U        | 1.0             | YES        | S4VEM            |
| 3,3-Dichlorobenzidine              | Target       | 500               | U               | ug/kg | 500        | U        | 1.0             | YES        | S4VEM            |
| Benzo(a)anthracene                 | Target       | 2400              |                 | ug/kg | 2400       |          | 1.0             | YES        | S4VEM            |
| Chrysene                           | Target       | 2800              |                 | ug/kg | 2800       |          | 1.0             | YES        | S4VEM            |
| Bis(2-ethylhexyl)phthalate         | Target       | 480               |                 | ug/kg | 480        |          | 1.0             | YES        | S4VEM            |
| Di-n-octyl phthalate               | Target       | 500               | U               | ug/kg | 500        | U        | 1.0             | YES        | S4VEM            |
| Benzo(b)fluoranthene               | Target       | 3600              |                 | ug/kg | 3600       |          | 1.0             | YES        | S4VEM            |
| Benzo(k)fluoranthene               | Target       | 1100              |                 | ug/kg | 1100       |          | 1.0             | YES        | S4VEM            |
| Benzo(a)pyrene                     | Target       | 2300              |                 | ug/kg | 2300       |          | 1.0             | YES        | S4VEM            |
| Indeno(1,2,3-cd)pyrene             | Target       | 1400              |                 | ug/kg | 1400       |          | 1.0             | YES        | S4VEM            |
| Dibenzo(a,h)anthracene             | Target       | 460               |                 | ug/kg | 460        |          | 1.0             | YES        | S4VEM            |
| Benzo(g,h,i)perylene               | Target       | 1400              |                 | ug/kg | 1400       |          | 1.0             | YES        | S4VEM            |

| Hexachlorocyclopentadiene   | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| 2,4,6-Trichlorophenol       | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4,5-Trichlorophenol       | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 1,1-Biphenyl                | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2-Chloronaphthalene         | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitroaniline              | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Dimethylphthalate           | Target       | 110               | J               | ug/kg | 110        | J        | 1.0             | YES        | S4VEM            |
| 2,6-Dinitrotoluene          | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthylene              | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 3-Nitroaniline              | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthene                | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrophenol           | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitrophenol               | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| Dibenzofuran                | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrotoluene          | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Diethylphthalate            | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Fluorene                    | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 4-Chlorophenyl-phenylether  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitroaniline              | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| 4,6-Dinitro-2-methylphenol  | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| N-Nitrosodiphenylamine      | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 1,2,4,5-Tetrachlorobenzene  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 4-Bromophenyl-phenylether   | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobenzene           | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Atrazine                    | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| Pentachlorophenol           | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| Phenanthrene                | Target       | 210               | J               | ug/kg | 210        | J        | 1.0             | YES        | S4VEM            |
| Anthracene                  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |

# Sample Summary Report

Project Name: NORWOOD LANDFILL Project

GroupID: 49167/EPW14030/C0B11

Lab Name: Chemtech Consulting Group

| Analyte Name               | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |
|----------------------------|--------------|-------------------|-----------------|-------|------------|----------|-----------------|------------|------------------|
| Carbazole                  | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| Di-n-butylphthalate        | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Fluoranthene               | Target       | 360               | J               | ug/kg | 360        | J        | 1.0             | YES        | S4VEM            |
| Pyrene                     | Target       | 330               |                 | ug/kg | 330        |          | 1.0             | YES        | S4VEM            |
| Butylbenzylphthalate       | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 3,3-Dichlorobenzidine      | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| Benzo(a)anthracene         | Target       | 180               | J               | ug/kg | 180        | J        | 1.0             | YES        | S4VEM            |
| Chrysene                   | Target       | 210               | J               | ug/kg | 210        | J        | 1.0             | YES        | S4VEM            |
| Bis(2-ethylhexyl)phthalate | Target       | 150               | J               | ug/kg | 150        | J        | 1.0             | YES        | S4VEM            |
| Di-n-octyl phthalate       | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |

| Dieldrin            | Target       | 4.7               | U               | ug/kg | 4.7        | U        | 1.0             | YES        | S4VEM            |
| 4,4-DDE             | Target       | 1.2               | J               | ug/kg | 1.2        | J        | 1.0             | YES        | S4VEM            |
| Endrin              | Target       | 4.7               | U               | ug/kg | 4.7        | U        | 1.0             | YES        | S4VEM            |
| Endosulfan II       | Target       | 4.7               | U               | ug/kg | 4.7        | U        | 1.0             | YES        | S4VEM            |
| 4,4-DDD             | Target       | 4.7               | U               | ug/kg | 4.7        | U        | 1.0             | YES        | S4VEM            |
| Endosulfan Sulfate  | Target       | 4.7               | U               | ug/kg | 4.7        | U        | 1.0             | YES        | S4VEM            |
| 4,4-DDT             | Target       | 0.71              | J               | ug/kg | 0.71       | JP       | 1.0             | YES        | S4VEM            |
| Methoxychlor        | Target       | 25                | U               | ug/kg | 25         | U        | 1.0             | YES        | S4VEM            |
| Endrin ketone       | Target       | 4.7               | U               | ug/kg | 4.7        | U        | 1.0             | YES        | S4VEM            |
| Endrin Aldehyde     | Target       | 4.7               | U               | ug/kg | 4.7        | U        | 1.0             | YES        | S4VEM            |
| cis-Chlordane       | Target       | 0.89              | J               | ug/kg | 0.89       | JP       | 1.0             | YES        | S4VEM            |
| trans-Chlordane     | Target       | 0.70              | J               | ug/kg | 0.70       | JP       | 1.0             | YES        | S4VEM            |
| Toxaphene           | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |

# Sample Summary Report

Project Name: NORWOOD LANDFILL Project

GroupID: 49167/EPW14030/C0B11

Lab Name: Chemtech Consulting Group

|                             |                       |                         |                       |
|-----------------------------|-----------------------|-------------------------|-----------------------|
| Sample Number: C0B37        | Method: Semivolatiles | Matrix: Soil            | MA Number:            |
| Sample Location: NLR-CS-106 | pH:                   | Sample Date: 11/12/2020 | Sample Time: 08:30:00 |
| % Moisture:                 |                       | % Solids: 69.5          |                       |

| Analyte Name                | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |
|-----------------------------|--------------|-------------------|-----------------|-------|------------|----------|-----------------|------------|------------------|
| 1,4-Dioxane                 | Target       | 96                | U               | ug/kg | 96         | U        | 1.0             | YES        | S4VEM            |
| Benzaldehyde                | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Phenol                      | Target       | 230               | J               | ug/kg | 230        | J        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethyl)ether     | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 2-Chlorophenol              | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylphenol              | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 2,2-oxybis(1-Chloropropane) | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Acetophenone                | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 4-Methylphenol              | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| N-Nitroso-di-n-propylamine  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Hexachloroethane            | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Nitrobenzene                | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Isophorone                  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitrophenol               | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dimethylphenol          | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethoxy)methane  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dichlorophenol          | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Naphthalene                 | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloroaniline             | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobutadiene         | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Caprolactam                 | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloro-3-methylphenol     | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylnaphthalene         | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorocyclopentadiene   | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 2,4,6-Trichlorophenol       | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4,5-Trichlorophenol       | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 1,1-Biphenyl                | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2-Chloronaphthalene         | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitroaniline              | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Dimethylphthalate           | Target       | 76                | J               | ug/kg | 76         | J        | 1.0             | YES        | S4VEM            |
| 2,6-Dinitrotoluene          | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthylene              | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 3-Nitroaniline              | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthene                | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrophenol           | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitrophenol               | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Dibenzofuran                | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrotoluene          | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Diethylphthalate            | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Fluorene                    | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 4-Chlorophenyl-phenylether  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitroaniline              | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 4,6-Dinitro-2-methylphenol  | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| N-Nitrosodiphenylamine      | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |

| 2,4-Dinitrophenol           | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitrophenol               | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| Dibenzofuran                | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrotoluene          | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Diethylphthalate            | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Fluorene                    | Target       | 64                | J               | ug/kg | 64         | J        | 1.0             | YES        | S4VEM            |
| 4-Chlorophenyl-phenylether  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitroaniline              | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| 4,6-Dinitro-2-methylphenol  | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| N-Nitrosodiphenylamine      | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 1,2,4,5-Tetrachlorobenzene  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 4-Bromophenyl-phenylether   | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobenzene           | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Atrazine                    | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| Pentachlorophenol           | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| Phenanthrene                | Target       | 1900              |                 | ug/kg | 1900       |          | 1.0             | YES        | S4VEM            |
| Anthracene                  | Target       | 350               |                 | ug/kg | 350        |          | 1.0             | YES        | S4VEM            |
| Carbazole                   | Target       | 210               | J               | ug/kg | 210        | J        | 1.0             | YES        | S4VEM            |
| Di-n-butylphthalate         | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |

# Sample Summary Report

Project Name: NORWOOD LANDFILL Project

GroupID: 49167/EPW14030/C0B11

Lab Name: Chemtech Consulting Group

| Analyte Name                       | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |
|------------------------------------|--------------|-------------------|-----------------|-------|------------|----------|-----------------|------------|------------------|
| Fluoranthene                       | Target       | 5200              |                 | ug/kg | 5200       |          | 1.0             | YES        | S4VEM            |
| Pyrene                             | Target       | 4200              |                 | ug/kg | 4200       | D        | 2.0             | YES        | S4VEM            |
| Butylbenzylphthalate               | Target       | 52                | J               | ug/kg | 52         | J        | 1.0             | YES        | S4VEM            |
| 3,3-Dichlorobenzidine              | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| Benzo(a)anthracene                 | Target       | 2800              |                 | ug/kg | 2800       |          | 1.0             | YES        | S4VEM            |
| Chrysene                           | Target       | 3200              |                 | ug/kg | 3200       |          | 1.0             | YES        | S4VEM            |
| Bis(2-ethylhexyl)phthalate         | Target       | 180               | J               | ug/kg | 180        | J        | 1.0             | YES        | S4VEM            |
| Di-n-octyl phthalate               | Target       | 460               | U               | ug/kg | 460        | U        | 1.0             | YES        | S4VEM            |
| Benzo(b)fluoranthene               | Target       | 3500              |                 | ug/kg | 3500       | D        | 2.0             | YES        | S4VEM            |
| Benzo(k)fluoranthene               | Target       | 1400              |                 | ug/kg | 1400       |          | 1.0             | YES        | S4VEM            |
| Benzo(a)pyrene                     | Target       | 2900              |                 | ug/kg | 2900       |          | 1.0             | YES        | S4VEM            |
| Indeno(1,2,3-cd)pyrene             | Target       | 1700              |                 | ug/kg | 1700       |          | 1.0             | YES        | S4VEM            |
| Dibenzo(a,h)anthracene             | Target       | 520               |                 | ug/kg | 520        |          | 1.0             | YES        | S4VEM            |
| Benzo(g,h,i)perylene               | Target       | 1800              |                 | ug/kg | 1800       |          | 1.0             | YES        | S4VEM            |
| 2,3,4,6-Tetrachlorophenol          | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 4-Azapyrene                        | TIC          | 120               | JN              | ug/kg | 120        | JN       | 1.0             | YES        | NV               |

| Hexachloroethane            | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Nitrobenzene                | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Isophorone                  | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitrophenol               | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dimethylphenol          | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethoxy)methane  | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dichlorophenol          | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Naphthalene                 | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloroaniline             | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobutadiene         | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Caprolactam                 | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloro-3-methylphenol     | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylnaphthalene         | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorocyclopentadiene   | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| 2,4,6-Trichlorophenol       | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2,4,5-Trichlorophenol       | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 1,1-Biphenyl                | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2-Chloronaphthalene         | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitroaniline              | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Dimethylphthalate           | Target       | 99                | J               | ug/kg | 99         | J        | 1.0             | YES        | S4VEM            |
| 2,6-Dinitrotoluene          | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthylene              | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 3-Nitroaniline              | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthene                | Target       | 88                | J               | ug/kg | 88         | J        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrophenol           | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitrophenol               | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| Dibenzofuran                | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrotoluene          | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Diethylphthalate            | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Fluorene                    | Target       | 110               | J               | ug/kg | 110        | J        | 1.0             | YES        | S4VEM            |
| 4-Chlorophenyl-phenylether  | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitroaniline              | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| 4,6-Dinitro-2-methylphenol  | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| N-Nitrosodiphenylamine      | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 1,2,4,5-Tetrachlorobenzene  | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 4-Bromophenyl-phenylether   | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobenzene           | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| Atrazine                    | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| Pentachlorophenol           | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| Phenanthrene                | Target       | 2600              |                 | ug/kg | 2600       |          | 1.0             | YES        | S4VEM            |
| Anthracene                  | Target       | 430               |                 | ug/kg | 430        |          | 1.0             | YES        | S4VEM            |
| Carbazole                   | Target       | 300               | J               | ug/kg | 300        | J        | 1.0             | YES        | S4VEM            |
| Di-n-butylphthalate         | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |

# Sample Summary Report

Project Name: NORWOOD LANDFILL Project

GroupID: 49167/EPW14030/C0B11

Lab Name: Chemtech Consulting Group

| Analyte Name                        | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |
|-------------------------------------|--------------|-------------------|-----------------|-------|------------|----------|-----------------|------------|------------------|
| Fluoranthene                        | Target       | 5700              |                 | ug/kg | 5700       |          | 1.0             | YES        | S4VEM            |
| Pyrene                              | Target       | 5600              |                 | ug/kg | 5600       | D        | 2.0             | YES        | S4VEM            |
| Butylbenzylphthalate                | Target       | 250               | U               | ug/kg | 250        | U        | 1.0             | YES        | S4VEM            |
| 3,3-Dichlorobenzidine               | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| Benzo(a)anthracene                  | Target       | 3100              |                 | ug/kg | 3100       |          | 1.0             | YES        | S4VEM            |
| Chrysene                            | Target       | 3600              |                 | ug/kg | 3600       |          | 1.0             | YES        | S4VEM            |
| Bis(2-ethylhexyl)phthalate          | Target       | 130               | J               | ug/kg | 130        | J        | 1.0             | YES        | S4VEM            |
| Di-n-octyl phthalate                | Target       | 480               | U               | ug/kg | 480        | U        | 1.0             | YES        | S4VEM            |
| Benzo(b)fluoranthene                | Target       | 4500              |                 | ug/kg | 4500       | D        | 2.0             | YES        | S4VEM            |
| Benzo(k)fluoranthene                | Target       | 1400              |                 | ug/kg | 1400       |          | 1.0             | YES        | S4VEM            |
| Benzo(a)pyrene                      | Target       | 3000              |                 | ug/kg | 3000       |          | 1.0             | YES        | S4VEM            |
| Indeno(1,2,3-cd)pyrene              | Target       | 1700              |                 | ug/kg | 1700       |          | 1.0             | YES        | S4VEM            |
| Dibenzo(a,h)anthracene              | Target       | 540               |                 | ug/kg | 540        |          | 1.0             | YES        | S4VEM            |
| Benzo(g,h,i)perylene                | Target       | 1700              |                 | ug/kg | 1700       |          | 1.0             | YES        | S4VEM            |

| Endosulfan Sulfate  | Target       | 4.7               | U               | ug/kg | 4.7        | U        | 1.0             | YES        | S4VEM            |
| 4,4-DDT             | Target       | 0.79              | J               | ug/kg | 0.79       | JP       | 1.0             | YES        | S4VEM            |
| Methoxychlor        | Target       | 24                | U               | ug/kg | 24         | U        | 1.0             | YES        | S4VEM            |
| Endrin ketone       | Target       | 4.7               | U               | ug/kg | 4.7        | U        | 1.0             | YES        | S4VEM            |
| Endrin Aldehyde     | Target       | 4.7               | U               | ug/kg | 4.7        | U        | 1.0             | YES        | S4VEM            |
| cis-Chlordane       | Target       | 6.7               | J               | ug/kg | 6.7        | P        | 1.0             | YES        | S4VEM            |
| trans-Chlordane     | Target       | 2.0               | J               | ug/kg | 2.0        | JP       | 1.0             | YES        | S4VEM            |
| Toxaphene           | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |

# Sample Summary Report

Project Name: NORWOOD LANDFILL Project

GroupID: 49167/EPW14030/C0B11

Lab Name: Chemtech Consulting Group

|                             |                       |                         |                       |
|-----------------------------|-----------------------|-------------------------|-----------------------|
| Sample Number: C0B73        | Method: Semivolatiles | Matrix: Soil            | MA Number:            |
| Sample Location: NLR-CS-142 | pH:                   | Sample Date: 11/12/2020 | Sample Time: 11:00:00 |
| % Moisture:                 |                       | % Solids: 69.8          |                       |

| Analyte Name                | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |
|-----------------------------|--------------|-------------------|-----------------|-------|------------|----------|-----------------|------------|------------------|
| 1,4-Dioxane                 | Target       | 96                | U               | ug/kg | 96         | U        | 1.0             | YES        | S4VEM            |
| Benzaldehyde                | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Phenol                      | Target       | 93                | J               | ug/kg | 93         | J        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethyl)ether     | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 2-Chlorophenol              | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylphenol              | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 2,2-oxybis(1-Chloropropane) | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Acetophenone                | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 4-Methylphenol              | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| N-Nitroso-di-n-propylamine  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Hexachloroethane            | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Nitrobenzene                | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Isophorone                  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitrophenol               | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dimethylphenol          | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethoxy)methane  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dichlorophenol          | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Naphthalene                 | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloroaniline             | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobutadiene         | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Caprolactam                 | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloro-3-methylphenol     | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylnaphthalene         | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorocyclopentadiene   | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 2,4,6-Trichlorophenol       | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4,5-Trichlorophenol       | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 1,1-Biphenyl                | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2-Chloronaphthalene         | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitroaniline              | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Dimethylphthalate           | Target       | 140               | J               | ug/kg | 140        | J        | 1.0             | YES        | S4VEM            |
| 2,6-Dinitrotoluene          | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthylene              | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 3-Nitroaniline              | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthene                | Target       | 72                | J               | ug/kg | 72         | J        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrophenol           | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitrophenol               | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Dibenzofuran                | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrotoluene          | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Diethylphthalate            | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Fluorene                    | Target       | 87                | J               | ug/kg | 87         | J        | 1.0             | YES        | S4VEM            |
| 4-Chlorophenyl-phenylether  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitroaniline              | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 4,6-Dinitro-2-methylphenol  | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| N-Nitrosodiphenylamine      | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 1,2,4,5-Tetrachlorobenzene  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 4-Bromophenyl-phenylether   | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobenzene           | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Atrazine                    | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Pentachlorophenol           | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Phenanthrene                | Target       | 1900              |                 | ug/kg | 1900       |          | 1.0             | YES        | S4VEM            |
| Anthracene                  | Target       | 330               |                 | ug/kg | 330        |          | 1.0             | YES        | S4VEM            |

| Acetophenone                | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 4-Methylphenol              | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| N-Nitroso-di-n-propylamine  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Hexachloroethane            | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Nitrobenzene                | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Isophorone                  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitrophenol               | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dimethylphenol          | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethoxy)methane  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dichlorophenol          | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Naphthalene                 | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloroaniline             | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobutadiene         | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Caprolactam                 | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloro-3-methylphenol     | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylnaphthalene         | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorocyclopentadiene   | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 2,4,6-Trichlorophenol       | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4,5-Trichlorophenol       | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 1,1-Biphenyl                | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2-Chloronaphthalene         | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitroaniline              | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Dimethylphthalate           | Target       | 180               | J               | ug/kg | 180        | J        | 1.0             | YES        | S4VEM            |
| 2,6-Dinitrotoluene          | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthylene              | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 3-Nitroaniline              | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthene                | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrophenol           | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitrophenol               | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Dibenzofuran                | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrotoluene          | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Diethylphthalate            | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Fluorene                    | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 4-Chlorophenyl-phenylether  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitroaniline              | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| 4,6-Dinitro-2-methylphenol  | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| N-Nitrosodiphenylamine      | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 1,2,4,5-Tetrachlorobenzene  | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 4-Bromophenyl-phenylether   | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobenzene           | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Atrazine                    | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Pentachlorophenol           | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Phenanthrene                | Target       | 320               | U               | ug/kg | 320        | U        | 1.0             | YES        | S4VEM            |
| Anthracene                  | Target       | 58                | J               | ug/kg | 58         | J        | 1.0             | YES        | S4VEM            |

# Sample Summary Report

Project Name: NORWOOD LANDFILL Project

GroupID: 49167/EPW14030/C0B11

Lab Name: Chemtech Consulting Group

| Analyte Name               | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |
|----------------------------|--------------|-------------------|-----------------|-------|------------|----------|-----------------|------------|------------------|
| Carbazole                  | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Di-n-butylphthalate        | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Fluoranthene               | Target       | 610               |                 | ug/kg | 610        |          | 1.0             | YES        | S4VEM            |
| Pyrene                     | Target       | 530               |                 | ug/kg | 530        |          | 1.0             | YES        | S4VEM            |
| Butylbenzylphthalate       | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| 3,3-Dichlorobenzidine      | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Benzo(a)anthracene         | Target       | 260               |                 | ug/kg | 260        |          | 1.0             | YES        | S4VEM            |
| Chrysene                   | Target       | 270               |                 | ug/kg | 270        |          | 1.0             | YES        | S4VEM            |
| Bis(2-ethylhexyl)phthalate | Target       | 240               | U               | ug/kg | 240        | U        | 1.0             | YES        | S4VEM            |
| Di-n-octyl phthalate       | Target       | 470               | U               | ug/kg | 470        | U        | 1.0             | YES        | S4VEM            |
| Benzo(b)fluoranthene       | Target       | 320               |                 | ug/kg | 320        |          | 1.0             | YES        | S4VEM            |
| Benzo(k)fluoranthene       | Target       | 120               | J               | ug/kg | 120        | J        | 1.0             | YES        | S4VEM            |
| Benzo(a)pyrene             | Target       | 240               |                 | ug/kg | 240        |          | 1.0             | YES        | S4VEM            |
| Indeno(1,2,3-cd)pyrene     | Target       | 130               | J               | ug/kg | 130        | J        | 1.0             | YES        | S4VEM            |
| Dibenzo(a,h)anthracene     | Target       | 51                | J               | ug/kg | 51         | J        | 1.0             | YES        | S4VEM            |

| Analyte Name                | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |
|-----------------------------|--------------|-------------------|-----------------|-------|------------|----------|-----------------|------------|------------------|
| 1,4-Dioxane                 | Target       | 85                | U               | ug/kg | 85         | U        | 1.0             | YES        | S4VEM            |
| Benzaldehyde                | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| Phenol                      | Target       | 150               | J               | ug/kg | 150        | J        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethyl)ether     | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| 2-Chlorophenol              | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylphenol              | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| 2,2-oxybis(1-Chloropropane) | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| Acetophenone                | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| 4-Methylphenol              | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| N-Nitroso-di-n-propylamine  | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Hexachloroethane            | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Nitrobenzene                | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Isophorone                  | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitrophenol               | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dimethylphenol          | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Bis(2-Chloroethoxy)methane  | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dichlorophenol          | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Naphthalene                 | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloroaniline             | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobutadiene         | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Caprolactam                 | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| 4-Chloro-3-methylphenol     | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2-Methylnaphthalene         | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorocyclopentadiene   | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| 2,4,6-Trichlorophenol       | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2,4,5-Trichlorophenol       | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 1,1-Biphenyl                | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2-Chloronaphthalene         | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2-Nitroaniline              | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Dimethylphthalate           | Target       | 55                | J               | ug/kg | 55         | J        | 1.0             | YES        | S4VEM            |
| 2,6-Dinitrotoluene          | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthylene              | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 3-Nitroaniline              | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| Acenaphthene                | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrophenol           | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitrophenol               | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| Dibenzofuran                | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 2,4-Dinitrotoluene          | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Diethylphthalate            | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Fluorene                    | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 4-Chlorophenyl-phenylether  | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 4-Nitroaniline              | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| 4,6-Dinitro-2-methylphenol  | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| N-Nitrosodiphenylamine      | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 1,2,4,5-Tetrachlorobenzene  | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 4-Bromophenyl-phenylether   | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Hexachlorobenzene           | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Atrazine                    | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| Pentachlorophenol           | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| Phenanthrene                | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Anthracene                  | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |

# Sample Summary Report

Project Name: NORWOOD LANDFILL Project

GroupID: 49167/EPW14030/C0B11

Lab Name: Chemtech Consulting Group

| Analyte Name               | Analyte Type | Validation Result | Validation Flag | Units | Lab Result | Lab Flag | Dilution Factor | Reportable | Validation Level |
|----------------------------|--------------|-------------------|-----------------|-------|------------|----------|-----------------|------------|------------------|
| Carbazole                  | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| Di-n-butylphthalate        | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Fluoranthene               | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| Pyrene                     | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Butylbenzylphthalate       | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| 3,3-Dichlorobenzidine      | Target       | 420               | U               | ug/kg | 420        | U        | 1.0             | YES        | S4VEM            |
| Benzo(a)anthracene         | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Chrysene                   | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
| Bis(2-ethylhexyl)phthalate | Target       | 220               | U               | ug/kg | 220        | U        | 1.0             | YES        | S4VEM            |
