May 19th, 2011

Time: 3:30-8:00 p.m.

Location:

Hudson K-8 School
3300 F.L. Shuttlesworth
Drive North, Birmingham,
AL 35207

Neighborhood Environmental News

Collegeville, Harriman Park and Fairmont Communities in North Birmingham area

U.S. Environmental Protection Agency (EPA) Region 4
Corrective Action Program

The Mission of the EPA is to protect human health and to safeguard the natural environment—air, water, and land—upon which life depends.

A principle of EPA community engagement is to include the community to help define the problem and to develop solutions and alternatives.

EPA will conduct a 25-minute presentation at 4pm and again at 6pm, as well as answer questions. A summary of residential and school soil sampling results (2009) will be shared with the community at-large. EPA will talk about current and next steps to address soil contamination in the community.

We want to hear about your concerns and work with you to develop solutions.

Representatives from EPA, Walter Coke, and other agencies will be present.

Individual appointments can be scheduled by contacting Brian Holtzclaw (EPA) at (404) 562-8684.

If you need assistance with transportation, please contact Mr. Ronald Mitchell at 205-478-6575.
