

Transitioning I/M Workgroup

Gene Tierney, EPA
Ted Kotsakis, OR

[Report being drafted...]

- Three Innovative Approaches
 - Data logger
 - Plug-in OBD port, capture status, disconnect, upload results from computer or mail in
 - Kiosk
 - Self-service, 24 hour testing, no staff
 - Remote OBD
 - Continuous monitoring of OBD reported to state using cellular, wi-fi or radio frequency communications
- Looks at costs, benefits and issues

[National Standard for Remote]

- Establish a universal standard for protocols, data, and communication
- Hope to avoid having to re-equip a vehicle that moves from one state to another
