1. Congratulations to Tina Vujovich! Automotive News has named her to its list of 100 leading women in the North American Automotive Industry. She is Vice President of Environmental Policy and Product Strategy at Cummins and a long-time member of the MSTRS.

2. John White is leaving the MSTRS. As a result of a new assignment in another part of our organization, I will be leaving my role as Alternate Designated Federal Official of the Mobile Sources Technical Review Subcommittee. As my successor, Greg Green has selected Cheryl Hogan. She will also become the Work Assignment Manager for the contract with EC/R (Brian Morton is their Program Manager) which provides technical and administrative support to the Subcommittee. This transfer of responsibilities became official after submission of the MSTRS materials for the annual report which were submitted October 20. I expect that Mary Green will still be providing administrative support.
