## **Contaminants of Concern and Other Target Analytes Table (Project Action Limits and Reporting Limits Table)**

Compound of Concern and Other Target Analytes	Matrix	Project Acton Limit (units)	Laboratory MDL (units)	Laboratory Quantitation Limit (Units)

List the Contaminants of Concern (COCs) and other target analytes/compounds that will be measured for the project. Identify the COCs with an "\*." Verify that the laboratory quantitation limit is less than the Project Action Limit. Refer to EPA QA/G-5 Section 2.1.6 for guidance.
