The Administrator has delegated these authorities to the Regional Administrator of Region III, who in turn has delegated them to the Director of the Water Protection Division of Region III.

**II. STATUTORY AND REGULATORY BACKGROUND**

2. Section 301(a) of the Act, 33 U.S.C. § 1311(a), prohibits the discharge of any pollutants (other than dredged or fill material) from a point source into waters of the United States except in compliance with a permit issued pursuant to the National Pollutant Discharge Elimination System (“NPDES”) program under Section 402 of the Act, 33 U.S.C. § 1342.
3. EPA is authorized under Section 308 of the CWA, 33 U.S.C. § 1318, to require owners and operators of point sources to establish records and make such reports as may be necessary to carry out the purpose of the Act, including but not limited to:
  - (a) Developing or assisting in the development of any effluent limitation, or other limitation, prohibition, effluent standard, pretreatment standard, or standard of performance under the CWA;

- (b) Determining whether any person is in violation of any such effluent limitation, or other limitation, prohibition or effluent standard, pretreatment standard, or standard of performance;
  - (c) Any requirement under Section 308 of the CWA, 33 U.S.C. §1318; or
  - (d) Carrying out Sections 305, 311, 402, 404, and 504 of the CWA, 33 U.S.C. §§ 1315, 1321, 1342, 1344, and 1364.
4. Section 402(a) of the Act, 33 U.S.C. § 1342(a), provides that EPA may issue permits under the NPDES program for the discharge of pollutants from point sources to waters of the United States. The discharges are subject to specific terms and conditions as prescribed in the NPDES permit.
  5. "Discharge of a pollutant" includes "any addition of any pollutant or combination of pollutants to waters of the United States from any point source." 40 C.F.R. § 122.2.
  6. Section 502(6) of the Act, 33 U.S.C. § 1362(6), defines "pollutant" to include, *inter alia*, sewage, sludge, biological material and industrial, municipal and agricultural waste.
  7. Section 502(14) of the Act, 33 U.S.C. § 1362(14) defines "point source" as "...any discernible, confined and discrete conveyance, including but not limited to any pipe, ditch, channel, tunnel, conduit, well [or] discrete fissure..."
  8. A centralized waste treatment ("CWT") facility is defined as "any facility that treats (for disposal, recycling or recovery of material) any hazardous or non-hazardous industrial wastes, hazardous or non-hazardous industrial wastewater, and/or used material received from off site." 40 C.F.R. § 437.2(c).
  9. Pursuant to Section 402(b) of the Act, 33 U.S.C. § 1342(b), EPA authorized the Pennsylvania Department of Environmental Protection ("PADEP") to issue NPDES permits within the Commonwealth of Pennsylvania ("PA").
