

NPDES Permit Writers' Manual for Concentrated Animal Feeding Operations

EPA 833-F-12-001

February 2012

U.S. Environmental Protection Agency | Office of Water | Office of Wastewater Management

Contents

- 1. Introduction 1-1**
 - 1.1. Overview..... 1-1
 - 1.2. Background 1-2
 - 1.3. Purpose and Organization of this Manual 1-3
 - 1.4. Limitations of the Manual 1-4

- 2. AFOs and CAFOs 2-1**
 - 2.1. Animal Feeding Operations (AFOs) 2-1
 - 2.2. Concentrated Animal Feeding Operations (CAFOs)..... 2-5
 - 2.2.1. Types of Animal Operations Covered by CAFO Regulations..... 2-5
 - 2.2.2. Animal Types Not Listed in CAFO Regulations..... 2-6
 - 2.2.3. AFOs Defined as Large CAFOs..... 2-6
 - 2.2.4. Practices Constituting Poultry Operation Liquid-Manure Handling 2-7
 - Wet Lot and Dry Lot Duck Operations* 2-8
 - 2.2.5. AFOs that Are Medium CAFOs 2-8
 - 2.2.6. Operations under Common Ownership 2-11
 - 2.2.7. Operations with Multiple Animal Types..... 2-11
 - 2.2.8. AFOs Designated as CAFOs 2-12
 - 2.2.9. Process for Designating an AFO as a CAFO 2-13
 - 2.2.10. EPA Designation in NPDES Authorized States 2-15
 - References 2-16

- 3. Appropriate Permitting Strategies for CAFOs 3-1**
 - 3.1. NPDES CAFO Permit Applications and Notice of Intent 3-1
 - 3.1.1. CAFO Permit Application or Notice of Intent Requirements for
Nutrient Management Plans 3-3
 - 3.2. Individual NPDES Permits for CAFOs 3-3
 - 3.2.1. Developing Individual NPDES Permits for CAFOs..... 3-5
 - 3.3. NPDES General Permits for CAFOs..... 3-6
 - 3.3.1. Developing NPDES General Permit for CAFOs..... 3-7
 - 3.3.2. Watershed-Based NPDES Permits 3-9
 - 3.4. Procedures for Permitting Authority Review and Public Participation Before
Permit Coverage 3-10
 - 3.4.1. Individual Permit 3-10
 - 3.4.2. General Permit..... 3-10

4. Elements of an NPDES Permit for a CAFO	4-1
4.1. NPDES Effluent Limitations and Standards	4-2
4.1.1. Overview of Applicable Technology-Based Effluent Limitations and Standards	4-2
<i>ELG Animal Sectors</i>	4-3
<i>CAFOs That Are New Sources</i>	4-4
<i>CAFOs That Are New Dischargers</i>	4-7
4.1.2. Technology-Based Requirements for the Production Area of Large CAFOs	4-8
<i>Operations Covered by Subpart A—Horses and Sheep</i>	4-8
<i>Operations Covered by Subpart B—Ducks</i>	4-9
<i>Operations Covered by Subpart C—Dairy Cows and Cattle Other than Veal Calves and by Subpart D—Swine, Poultry and Veal Calves</i>	4-10
4.1.3. Technology-Based Requirements for the Land Application Area of Large CAFOs	4-14
4.1.4. Best Professional Judgment (BPJ)	4-17
4.1.5. Industrial Stormwater Discharges	4-19
4.1.6. Other Technology-Based Limitations that Apply to Discharges from CAFOs	4-20
4.1.7. Nutrient Management Plan (NMP)	4-21
<i>Minimum Measures that Must be Terms and Conditions of the NPDES Permit</i>	4-21
<i>Including the Terms of the NMP as NPDES Permit Terms</i>	4-22
<i>Establishing the Minimum Measures as NPDES Permit Terms</i>	4-23
<i>Approaches for Writing Site-Specific Permit Terms of the NMP</i>	4-25
<i>Changes to a Permitted CAFO's NMP</i>	4-28
<i>Process for Review and Modification of the NMP</i>	4-31
4.1.8. Agricultural Stormwater Exemption for Permitted CAFOs	4-34
<i>Permitted Large CAFOs</i>	4-34
<i>Permitted Small and Medium CAFOs</i>	4-35
4.1.9. Water Quality-Based Effluent Limitations and Standards	4-35
<i>Requirements for the Production Area of Large CAFOs</i>	4-36
<i>Requirements for the Land Application Area of Large CAFOs</i>	4-36
4.2. Monitoring, Record-Keeping, and Reporting Requirements of NPDES Permits for CAFOs	4-37
4.2.1. Monitoring Requirements	4-37
4.2.2. Recordkeeping Requirements	4-38

4.2.3. Reporting Requirements	4-43
<i>Annual Reports</i>	4-43
4.3. Special Conditions for All NPDES Permits for CAFOs	4-45
4.3.1. Additional Special Conditions as Determined by the Permitting Authority	4-45
4.3.2. Duty to Maintain Permit Coverage until the CAFO is Properly Closed	4-46
<i>Closure Documentation</i>	4-46
4.3.3. Manure Transfer Requirements for Large CAFOs	4-47
4.4. Standard Conditions of a CAFO NPDES Permit	4-48
4.4.1. Types of Standard Conditions	4-48
Reference	4-51
5. Nutrient Management Planning	5-1
5.1. EPA's Nine Minimum Requirements for Nutrient Management	5-2
5.1.1. Permitted Large CAFOs	5-3
5.1.2. Permitted Small and Medium CAFOs	5-3
5.1.3. Unpermitted Large CAFOs	5-3
5.2. Developing Permit Terms	5-4
5.3. Adequate Manure, Litter, and Wastewater Storage, Including Procedures to Ensure Proper Operation and Maintenance of the Storage Facility 40 CFR Part 122.42(e)(i)	5-5
5.3.1. Permit Terms for Adequate Storage of Manure, Litter, and Wastewater	5-6
5.3.2. Technical Information on Storage Structure Design, Construction, Operation and Maintenance	5-8
<i>Design and Construction of Storage Structures</i>	5-8
<i>O&M of Storage Structures</i>	5-12
<i>Monitoring and Recordkeeping</i>	5-15
5.4. Mortality Management 40 CFR 122.42(e)(ii)	5-17
5.4.1. Permit Terms for Mortality Management	5-18
5.4.2. Technical Information on Mortality Management and Disposal	5-19
<i>Animal Mortality Disposal Practices</i>	5-21
5.5. Clean Water Diversion 40 CFR Part 122.42(e)(1)(iii)	5-23
5.5.1. Permit Terms for Clean Water Diversion	5-23
5.6. Prevention of Direct Animal Contact with Waters of the U.S. 40 CFR Part 122.42(e)(1)(iv)	5-25
5.6.1. Permit Terms for Prevention of Direct Animal Contact with Waters of the U.S.	5-25
5.7. Chemical Disposal 40 CFR Part 122.42(e)(1)(v)	5-26

5.7.1. Permit Terms for Chemical Disposal	5-26
5.7.2. Technical Information on Chemical Disposal.	5-28
5.8. Site-Specific Conservation Practices 40 CFR Part 122.42(e)(1)(vi)	5-29
5.8.1. Permit Terms for Conservation Practices	5-29
5.8.2. Required Land Application Setback and Alternatives for Large CAFOs 40 CFR Part 412.4(c)(5)	5-32
<i>35-Foot Vegetated Buffer</i>	5-33
<i>Demonstration That the Setback is Not Necessary</i>	5-33
5.8.3. Additional Conservation Practices Identified in the NMP	5-34
5.9. Manure and Soil Testing Protocols 40 CFR Part 122.42(e)(1)(vii)	5-35
5.9.1. Permit Terms for Protocols for Manure and Soil Testing	5-35
5.9.2. Technical information for Protocols for Manure and Soil Testing	5-36
<i>Manure Test Protocols</i>	5-36
<i>Soil Test Protocols</i>	5-42
5.10. Protocols for Land Application 40 CFR Part 122.42(e)(1)(viii)	5-47
5.11. Recordkeeping 40 CFR Parts 122.42(e)(1)(ix) and (e)(2)	5-47
5.12. Developing an NMP.	5-49
5.12.1. USDA's Comprehensive Nutrient Management Plan	5-49
5.12.2. Technical Assistance for Preparing NMPs	5-50
5.12.3. NMPs Developed by Certified Specialists.	5-51
References	5-52
6. Protocols for Land Application of Manure Nutrients	6-1
6.1. Soil and Plant Availability of Nutrients.	6-2
6.1.1. Nitrogen Cycle	6-2
6.1.2. Phosphorus Cycle	6-4
6.1.3. Soil Fertility.	6-6
6.2. Using Manure Nutrients	6-7
6.3. Standards for Nutrient Management.	6-11
6.3.1. EPA's State Requirements for Land Application	6-12
<i>Requirements for State Technical Standards</i>	6-12
6.4. EPA's CAFO Requirements for Land Application	6-17
<i>A Note on the Orientation of Chapter 6:</i>	6-18
6.5. Protocols for Land Application	6-18
6.5.1. Site-Specific Terms: Linear and Narrative Rate Approaches	6-20
<i>Fields Available for Land Application</i>	6-21

Timing Limitations for Land Application 6-22

Outcome of the Field-Specific Assessment of the Potential for Nitrogen and Phosphorus Transport from Each Field 6-22

Planned Crop or Other Use 6-32

Realistic Annual Yield Goals 6-34

Total Nitrogen and Phosphorus Recommendations for Each Crop 6-35

6.5.2. Additional Site-Specific Terms: Linear Approach. 6-39

Credits for Plant Available Nitrogen in the Field 6-39

Consideration of Multi-Year Phosphorus Application 6-41

Accounting for All Other Additions of Plant Available Nitrogen and Phosphorus 6-42

Form and Source of Manure that Is Land Applied 6-43

Timing and Method of Land Application 6-44

The Maximum Amount of Nitrogen and Phosphorus from Manure, Litter and Process Wastewater 6-51

The Methodology to Account for the Amount of Nitrogen and Phosphorus in the Manure to be Applied 6-53

6.5.3. Additional Site-Specific Terms: Narrative Rate Approach 6-53

The Maximum Amounts of Nitrogen and Phosphorus from All Sources 6-54

Alternative Crops 6-56

The Methodology by which the NMP Calculates the Amount of Manure to be Land Applied 6-57

6.5.4. Substantial Changes. 6-61

6.6. Permit Terms for Land Application Protocols Using a Sample NMP 6-62

6.6.1. Site-Specific Terms: Linear and Narrative Rate Approaches 6-63

Fields Available for Land Application 6-63

Timing Limitations for Land Application 6-63

Outcome of the Assessment of the Potential for Nutrient and Phosphorus Transport for Each Field 6-65

Planned Crops or Other Use (Fallow, Pasture, etc.) for Each Field and Each Year 6-66

Realistic Annual Crop Yield Goal for Each Field 6-66

Total Nitrogen and Phosphorus Recommendations for Each Crop by Field and Year 6-67

6.6.2. Additional Site-Specific Terms: Linear Approach. 6-68

Credits for Plant Available Nitrogen 6-68

Consideration of Multi-Year Phosphorus Application 6-69

<i>Accounting for All Other Additions of Plant Available Nitrogen and Phosphorus to the Field</i>	6-70
<i>Form and Source of Manure that is Applied</i>	6-70
<i>Method and Timing of Land Application of Manure for Each Field</i>	6-71
<i>Maximum Amount of Nitrogen and Phosphorus from Manure, Litter, and Process Wastewater</i>	6-72
<i>Methodology to Account for the Amount of Nitrogen and Phosphorus in the Manure to be Applied</i>	6-73
6.6.3. Additional Site-Specific Terms: Narrative Rate Approach	6-75
<i>Maximum Amount of Nitrogen and Phosphorus from All Sources of Nutrients</i>	6-75
<i>Alternative Crops</i>	6-76
<i>Methodology</i>	6-76

Glossary

Appendix A. Basic Soil Science and Soil Fertility

Appendix B: Example Letters to Owners/Operators After a Site Visit

Appendix C: Example NPDES CAFO Permit Annual Report Form

Appendix D: Example Nutrient Management Plan Recordkeeping Forms

Appendix E: Minimum Depth of Rain at Which Runoff Begins

Appendix F: Voluntary Alternative Performance Standards for CAFOs

Appendix G. Winter Spreading Technical Guidance

Appendix H: NPDES CAFO Nutrient Management Plan Review Checklist

Appendix I. NPDES CAFO Technical Standard Review Checklist

Appendix J: NPDES General Permit Template for CAFOs

Appendix K: NRCS Conservation Practice Standards

Appendix L: Nutrient Management Planning Software

Appendix M: Nutrient Management Recordkeeping Calendar Template

Appendix N: References for NPDES Permit Writers

Appendix O: Sample Site-Specific NPDES General Permit

Appendix P: Sample Nutrient Management Plan
