1 Introduction

1.1 Overview

The purpose of this guidance document is to provide registrants instructions for constructing an XML file for inclusion in an electronic submission package and submitting the documents to the Environmental Protection Agency (EPA) Office of Pesticide Programs (OPP) electronically on CD/DVD. If registrants would like to forego the courier cost, they can create and submit the submission package using the Pesticide Submission Portal (PSP). PSP is available for use via the EPA Central Data Exchange (CDX), which can be accessed by going to <https://cdx.epa.gov>.

1.2 Help Desk Support

To help the registrants with electronic submissions, OPP is offering help desk support that will assist registrants with the creation of the electronic submission (referred to as “eSubmission”) eXtensible Markup Language (XML) package. Please utilize the resources we have provided to support your technical needs.

Support Hours:

- 8:00 AM – 4:00 PM Eastern Standard Time
- Monday through Friday

Phone Numbers:

- Dina Castellon – 703-347-8831 (Technical Assistance)
- Dominique White – 703-347-8159 (Technical Assistance - PSP)
- Robert Schultz – 703-308-8186 (Technical Assistance)
- Jane Scott Smith – 202-564-8476 (EDSP Program Assistance)

E-mail Address:

- OPP_e-Submission_Help_Desk@epa.gov

2 XML File Creation & Submission Instructions

Registrants can create an XML file by using an XML file creation application (i.e., Notepad, Microsoft Word, etc.) as described below.

2.1 Creating Application – XML File

Follow the steps listed below to create and submit the XML file using an XML file creation application (i.e., Notepad, Microsoft Word, etc.).

1. Create the XML file using one of the following applications:
 - Notepad
 - Microsoft Word
 - Text Editor
 - XML Editor (i.e., XMLSpy, XML Notepad)
2. Save the XML file using a file naming convention that contains the prefix “e-PRISM.” Examples of the file naming convention are provided below.
 - e-PRISMXXXX.xml
 - e-PRISM.xml
 - e-PRISMXXsampleXX.xml

Note: The name should contain only alphabets, -, periods and or numbers.

3. Alter the XML with the required EPA specific metadata fields and data types, which are provided in Appendix A. Additionally, a detailed sample XML file containing all the required fields is provided in Appendix B. (Please note that the EDSP metadata fields are marked as “”).

When creating the XML file, do not use “&”, “<”, and “>.” Additionally, restrict characters to those in the UTF-8 character set. Typical examples of characters that are not part of the UTF-8 character set include ™, ®, ©, (M-dash), – (n-dash). Do not confuse the normal hyphen (allowed) with the M-dash and N-dash symbols (disallowed).

4. Each document must be submitted as a single file. This is directed mainly for large studies that typically, in paper format, would be split up into multiple physical volumes.

If a CSF requires an “addendum,” include the addendum at the back of the CSF as part of the CSF file and submit as a single document.

Study summaries that have a one-to-one relationship with the study do not require their own MRIDs, but should reference the MRID of the study they are summarizing. Note that the US_MD2 field (Document type) for these summaries will be “STP.” These summaries should be in MS Word file format. Additionally, if the study summary is a summary of multiple studies (one-to-many), they may require their own MRID and should be submitted as PDF files. If there is a desire to submit MS Word versions of these

- summaries (please consult with the appropriate regulatory for guidance on this), the MS Word files would be considered “summaries” of the parent study (in this case the PDF version) and should follow the one-to-one summary guidance previously described.
5. Group all pertinent forms, studies, labels, and payment receipts associated into one submission.
 6. Use a file compression application (i.e., WinZip) for combining all the relevant documents for the submission. Keep the following in mind when creating the compressed file:
 - a) There is a file size limit for the zip files. Restrict each zip file to less than 2 GB. If a submission will be larger than that size, submit two separate zip files each with its own xml file and corresponding documents.
 - b) Use a separate zip file for each submission. For example, if you are applying for a New Registration and an Amendment to an existing registration, create two separate zip files. For EDSP, it will be one submission per EDSP order.
 - c) Do not include the same document in multiple zip files. Likewise, do not include a reference in the XML file to a document that is not physically included in the zip file. If a document supports multiple products, reference the document on the data matrix, transmittal, or other document (e.g. cover letter) as appropriate. eSubmission is not intended to provide cross-reference information and is merely a mechanism to get documents to the EPA.
 - d) All MRIDs for a specific 6-digit root MRID must be in the same zip file.
 7. Save the zip file to a DVD/CD.
 8. Place a label on the DVD/CD. The label should provide the following information:
 - EPA company number
 - EDSP Order Number or product registration number (if available)
 - Contact information
 - Name of chemical or product
 - Date when the DVD/CD is mailed
 - Brief description of the contents provided on the DVD/CD
 9. Deliver the labeled DVD/CD to EPA for EDSP orders and electronic submissions. The address for each is provided below.
 - a) Electronic Submission for EDSP or Consortium Order

Document Processing Desk (E-Sub PRD-EDSP)

Appendix A: Metadata Field Description & Data Type

e-PRISM XML Tag	Description	Details About Field	Data Type / Enumeration / Format	Required for Document Type	Min	Max
META						
COMPANY	Company Name/Number		String (50) / Number (6,0) - (if numeric value)	This is a required field for ALL document types.	1	1
BUILD	Build	Refer to the build number that was used to generate this file. If e-Index Builder is not used to generate, then this field could be left blank.	String (10)	This is a required field for ALL document types.	0	1
CREATE_DATE	Create Date	Date in YYYY-MM-DD format. Refers to the date that the XML file was generated.	Date in YYYY-MM-DD format	This is a required field for ALL document types.	1	1
RECORD_COUNT	Record Count	Refers to the number of documents referenced in the XML file and included in the submission. The field accepts only numbers.	Number (10)	This is a required field for ALL document types.	1	1
FIELDS						
ENTRY_ID	Provides an identification number for each document that is a part of submission package	Each document within a submission must be numbered using the <entry id => field (please refer to the example XML template for details).	When describing the first document, populate this field as follows: <entry id = "e0">. When describing the second and third documents this field should be populated as follows: <entry id = "e1"> <entry id = "e2">			

e-PRISM XML Tag	Description	Details About Field	Data Type / Enumeration / Format	Required for Document Type	Min	Max
DM_REPORT_NO	Company Report No.	Refers to the internal identification number for a study provided by the submitting company.	String (256)	This is a required field ONLY for studies.	0	1
DM_TITLE	Title	Indicates the title of a study provided by the submitting company or its lab.	String (240)	This is a required field ONLY for studies.	0	1
DM_AUTHOR	Author(s)	<p>Refers to the author of a study provided by the submitting company or its lab.</p> <p>Format :</p> <p>last name, first name/initial.</p> <p>All authors should be separated using semi colon (;)</p> <p>Example :</p> <p>1) Birk J.</p> <p>2) Robbin,Williams P.</p> <p>Peter,Russel ; Johnson, Woods; Mark, Jones.</p>	String (2000)	This is a required field ONLY for studies.	0	1
DM_REPORT_DATE	Document Date	Refers to the date of a study provided by a Lab. It will also be used by EPA to represent the date of <i>any document</i> that is submitted (for example, the date on a standard EPA form).	Format: YYYY-MM-DD	This is a required field for ALL document types.	1	1
DM_NO_PAGES	Page Count	Refers to the number of pages in a study including appendices provided by the submitting company or its lab. The value supplied should be numeric value.	Number (10)	This is a required field ONLY for studies.	0	1

DM_EPA_MRID_NO	EPA MRID No.	Refers to the MRID of the study being submitted by the company or its lab. Note: MRIDs must be preassigned by the Agency for all electronic submissions.	String (8)	This is a required field ONLY for studies, study profiles /summaries, and supplemental study data.	0	1
DM_LAB_REPORT_NUMBER	Lab Report No(s)	Refers to the internal identification number for a study used by the lab that produced a study. It is differentiated from the “DM_Report_No”, which refers to the internal tracking number for the study used by the submitting company.	String (20)	This is a required field ONLY for studies.	0	1
DM_PUBLISHED	Key Type	This field is called “Key Type”. It indicates whether a study has been published, and therefore made publicly available. EDSP or Consortia: For EDSP or Consortia order, if the study is not a published study the XML field should contain “N” as value for this field.	<ul style="list-style-type: none"> • Y • N 	This is a required field ONLY for studies.	0	1
DOCUMENT_GROUP	Document Group *This field is optional and not currently used by EPA	It allows the submitting company to relate different documents in the same submission package to each other using a customized string. This field is not required. The submitting company may enter any value they wish into this field.	String (40)		0	1
DM_COMMENTS	Comments *This field is optional and not currently used by EPA	It allows the submitting company to communicate questions, notes, or other remarks to the agency. The submitting company may enter any value they wish into this field.	String (2000)		0	1

DM_EFILE_NAME	e-File Name	It references the name of the file associated with the XML document record.	String (260)		1	1
US_MD1	Company Contact Info	<p>The “US_MD1” field represents the “Company Contact Information” for the file. Companies are required to provide a POC that can talk specifically about the e-Submission file sent to EPA and his/her contact information. It is expected that the value in this field will be the same for all documents.</p> <p>Consortia: This field is does not indicate the consortia contact information.</p>	String (500)	This is a required field for ALL document types.	1	1
US_MD2	Document Type	The “US_MD2” field represents the “Document Type” of a document to EPA. An acceptable list of Document Types will be provided. Codes will be used to represent each Document Type.	Click here for Document Types for EDSP/Consortia and eSubmission XML	This is a required field for ALL document types.	1	1
US_MD3	PRIA Action	<p>The “US_MD3” field represents the “PRIA Action” for the submission. This does not refer to the PRIA Code, but instead whether the submission was sent in support of a PRIA-related action. It is expected that the value in this field will be the same for all documents in the submission.</p> <p>EDSP or Consortia: For EDSP or Consortia order, the XML field should contain “N” as value for this field.</p>	<ul style="list-style-type: none"> • Y • N 	This is a required field.	1	1

29	• ROC (Records of Communication (emails, letters, meeting notes, etc.))	Yes	No
30	• SCL (Cover Letter)	Yes	No
31	• ST (Study)	Yes	Yes
32	• STP (Study Profile / Study Summary)	Yes	Yes
33	• SUPP – Supplemental Data (Raw data for Non-EDSP studies)	No	Yes
34	• TD (Transmittal Letter (Transmittal Document /Contains list of studies in submission))	Yes	Yes
35	• TER (Time Extension Report)	Yes	No
36	• TP (Tolerance Petition)	No	Yes
37	• TPN (Tolerance Petition Notice of filing)	No	Yes
38	• WR (Waiver Request)	No	Yes

***Note:** For document type Confidential Statement of Formula, “CSF” code is deprecated and codes “BAC” for basic formulation and “ALT” for alternative submission have been added.

Detail Description of Content Categories Described Under US_MD12

Code	Nature of Document
01	Complete primary reports of the author's experimental research, including discussions of materials and , methods, results and conclusions.
02	Incomplete or summarized primary reports of the author's experimental research, missing one or more of the elements listed for code 01.
03	Complete primary reports of the author's survey or monitoring research including discussions of methods, results, and conclusions. This category is for non-experimental research, and will usually be associated with such fields as economics, use practices , epidemiology, environmental monitoring, etc.
04	Incomplete or summarized primary reports of the author's survey or monitoring research, missing one or more of the elements listed for code 03.
05	Complete reports of case studies performed by the author. This category is distinguished from 03/04 survey research; case studies are reactive investigations of incidents. This category will be associated with such data as medical investigations of accidental or intentional poisonings, investigations of wildlife kills, of spills etc. There is no corresponding category for uninvestigated reports; these will be treated as news reports.
06	Complete reports of experimental, survey, or analytical methods, where the emphasis is on the method itself rather than on the results of its application. If a method is discussed in the same document as result of it use, use codes 01-05.
11	Secondary reports of research attributed to others. When the reported research is not that of the author, either code 11 or 12 is appropriate. When data reported or conclusions drawn are supported by cited primary references, use code 11. These reports may be broad or narrow in scope, and may review experimental or non-experimental research.
12	Unattributed secondary reports or summaries of research data or conclusions, not supported by cited primary references. These may take such form as "fact sheets" or technical specifications, or assertions of scientific facts or conclusions by reputable companies or scientists.
21	News reports from the scientific press. These are distinguishable from code 12 by emphasis on events rather than research results.
22	News reports from popular or trade media.
23	Opinion or commentary from interested groups or their representatives. In this context ,interested groups would include registrant firms, associations in the regulated community, government agencies, environmental groups, etc.
24	Opinion or commentary from individuals. This may be either favorable or adverse comment about a pesticide, and includes comments received in response to proposed regulatory actions. If affiliation of author with an interested group is mentioned but the comment is not made on behalf of the group, use code 24 rather than 23.
31	Patents, either U.S. or foreign.
32	Legal and regulatory documents including laws, judicial opinions or orders, briefs , hearing records, official notices, regulations, etc whether U.S. or foreign.
41	Bibliographies, when free-standing and not a part of a document falling into another category.
42	General reference works, or portions thereof.
